Conners." Court adjourned until day, and the state announced that still had ten more or less important cases to call.

Surveyor Fines

CHICAGO, Oct. 12.—The

From The Colonist of January 13, 1862

The American army now numbers 640,000 men.

John D. Wives, our railway postmaster-general, has ailing in London. A letter from Col. Foster yesterday says that he reached London safely on the 17th of November. No mention is made of Mrs. D. Wives or children. They had some ailments while under the regime, and have no doubt, returned home by their doctor's orders.

Officer Blake yesterday ordered several traders who had offered their loans for the transference of business to the city to be arrested. You have been doing the police to arrest all future violations of the Sunday law.

Madame's photographs of every dress and faith. The work was bravely accomplished but it appears the saintliness was over the Mother's social position, and a woman has been arrested for selling her wile.

SELLING-OUT SALE

Remodelling Of Jewellery

We still have left a number of unset gems of various kinds, which when mounted, would make very handsome pieces of jewelry.

With the cessation of the Xmas rush, we are now in the position to promptly fulfill orders.

To those who wish distinctive and original designs, executed by the most expert workmen, now is the time to visit us.

Victoria Vancouver Nelson, B. C.

OPENS DEBATE ON ADDRESS

(Continued From Page One.)

was not natural, Mr. Watson paid special attention in his speech to the remarkable prosperity enjoyed by the city of Vancouver. However, with his usual unflinching courtesy the member for Vancouver did not withhold recognition of the great development and progress of other cities of the province, notably Victoria, and his comments brought forth audible expressions of appreciation from the representatives of the various ridings he honored in his remarks.

Prior to settling down to his speech Mr. Watson took occasion to express the great pleasure he felt in seeing the Speaker, Hon. D. M. Eberts, once more in his chair enjoying his usual good health. He mentioned that thousands of the Speaker's friends throughout the province stood with him in his recent illness and that their spirits rose and fell accordingly as good and bad reports came from the scene of his illness. Mr. Watson expressed the hope, on behalf of himself and his fellow-members, that Mr. Speaker would for many years continue to enjoy his normal robust health.

In thanking the premier for the honor done him in asking him to place his motion before the assembly Mr. Watson stated that he regarded it as an appreciation by the premier of the importance of the constituency he has the honor to represent. Continuing Mr. Watson said:

Splendid Administration
"Let me say, Mr. Speaker, that the people of Vancouver will not value this courtesy any the less from the fact that they consider a great deal of the prosperity which they are enjoying today is largely due to the splendid administration they have received at the hands of this government. I attribute, Sir, and unquestionably I am right in doing so, the wonderful change from the unsettled and unsatisfactory condition of affairs that existed prior to the year 1905, to the wise administration of a stable government that we have received at Victoria, because, Sir, without wise administration and without stable government things must have gone from bad to worse, capital would have abandoned the province, and private enterprise would have suffered in sympathy with the precarious and unsettled condition of our public business. It is not, however, my intention to enter into a comparison of this government with those that existed in former years, suffice it to say that, for the reasons I have already stated, the people of Vancouver appreciate immensely the honor which has been conferred on them by having one of their representatives occupying the prominent position in which I find myself this afternoon."

Will Win Approval

"In glancing over the policy of the government as outlined in the speech from the throne, Sir, which I am sure will satisfy every honorable member on the floor of this house, as well as the country at large, and a policy, too, which should, and no doubt will, win the frank approval of those honorable gentlemen who constitute the parliamentary opposition, I find a programme which I am sure will meet with the hearty approval of the people of British Columbia and one which will result in a great deal of good for the entire province."

"Many important events of provincial, national and imperial interest have occurred since the last meeting of the legislature. The coronation of his Majesty King George and his royal consort in London last June was the occasion of a spontaneous outburst of loyalty from millions of devoted subjects. If the reports that their festivities will visit this Dominion within the next year or two prove correct they can be assured of the most hearty welcome from Atlantic to Pacific."

"As Canadians and British subjects those of us who remained at home were delighted at the prominent part taken by Canadian public men and Canadian soldiers in those proceedings. British Columbians, especially, read with pride of the public attention and honor shown and paid their official representatives, the leader of the government, and his colleagues, the attorney-general, during their stay in the British Isles. I think I express the sentiments of every Canadian when I say we all felt his Majesty gave gracious proof of his regard for Canadian loyalty when he sent us his illustrious uncle, H.R.H. the Duke of Connaught, to fill the high position of governor-general. I should think it would be eminently fitting that this assembly adopt an address of welcome to be duly forwarded to his Royal Highness."

"We are not unmindful of the distinguished services rendered by his predecessor, Earl Grey, and the great interest that he took in British Columbia, while it is a matter of common knowledge that he has acquired considerable property in the Okanagan, as well as in East Kootenay and that constituency so ably represented by Mr. Carson of Golden."

At this juncture Mr. Watson took occasion to express his great regret at the death of the late Col. Richard Wolfenden, one of the pioneers of British Columbia and for many years king's printer. He expressed to the relatives of the deceased the deep sympathy of the assembly in their bereavement.

Expansion of B. C.

"A survey of the provincial revenue collected from all sources for the fiscal year which ended on March 31, 1911," continued Mr. Watson in discussing the financial position of British Columbia, "shows expansion in every direction. It is a splendid reflection of the increasing prosperity of British Columbia and a triumph for the sound and prudent administration of that great financial department so ably presided over by Hon. Mr. Ellison. The gross revenue from all sources for the year referred to reaches the vast total of \$10,492,892.27."

Mr. Watson here quoted extensively from the figures of revenue for the past fiscal year which were incorporated in the statement of public accounts presented to the house by Hon. Mr.

Wilson on Thursday afternoon. These figures have already been published. "Statistics published by the auditor showing during the current fiscal year," proceeded Mr. Watson, "as I am given to understand that the timber and coal receipts for the nine months ending December 31 last show a most satisfactory increase. In regard to the time fixed out by the figures for this industry show a decrease on account of the recent strike at Fernie, though, with the settlement of the trouble, and the encouraging aspect of the silver lead industry in the Skeena, the mining outlook for the coming year is very bright."

"With the revenues of the province never in better shape than they are today I think that the administration is fully justified in presenting the substantial programme outlined in the speech from the throne. In doing so the first minister and his colleagues have again displayed their progressive and constructive statesmanship that has done so much in the past to ensure confidence and financial stability from one end of the province to the other, as well as to the gratification of businessmen, irrespective of party affiliations."

"A single instance of the government's solicitude for the people was the appointment of a royal commission on taxation which held numerous sessions throughout the province last summer and whose report was soon to be laid before the house. I am hopeful that their recommendations will receive full consideration and that any inequalities that may have existed in the past as regards taxation will be adjusted. A reduction of taxation will be effected wherever possible."

Forestry Legislation

"One result of the investigation of the forestry commission will be the creation, by legislation, this session of a forestry branch of the land department, also a bill dealing with the conservation and administration of the timber wealth of the province will be submitted for your consideration. In grasping the importance of this subject the minister of lands has rendered the public a great service, and has again displayed those rare administrative qualities which won him recognition from the moment he entered the cabinet. The timber wealth of this province is one of our greatest national assets. Expressing my individual opinion I think that the already efficient fire patrol service should be augmented by the establishment of wireless stations to report fires, and the work of such stations might be supplemented by the installation of telephone communication for the dissemination of information concerning outbreaks of fire. As one who has during the past year traveled a great deal through the province, I wish to congratulate the minister of lands on the assiduity he has displayed in posting notices to people in regard to the danger of the careless handling of fires in the woods. For my part I think that the government will be exacting in enacting legislation providing for the severest penalties upon those convicted of breaking the laws governing the setting out of fires. I do not think it would be going too far to make this punishment equivalent to that provided for arson."

"I desire to congratulate the honorable minister of works for his excellent showing in all matters under his jurisdiction. The operations of his department vitally affect the welfare of the ranchers, the miners and the traders in all outlying districts. He is giving them a system of roads, trails and bridges that greatly facilitate access to the remote sections of the province and simplify the task of colonizing many large agricultural areas. I understand that a few years more will witness the completion of a continuous highway from the coast across southern British Columbia to the Alberta boundary. Besides serving the people along the route, these facilities can not fail to attract many thousands of automobile tourists desirous of seeing the scenic beauties of British Columbia to better advantage than from the rear platform of an Imperial Limited express."

"I am glad to note that Hon. Mr. Taylor is also making splendid progress with the development and improvement of Strathcona Park on Vancouver Island. Too much importance cannot be attached to the desirability of preserving this great beauty spot. I do not think that many years will pass before the fame of Strathcona Park as one of the most beautiful regions of the world will be attracting thousands of visitors annually."

Visit to Ottawa

"All the papers dealing with the recent visit of the premier, the attorney-general and the minister of lands to Ottawa to discuss various provincial matters with the federal authorities will be laid before this assembly. I am sure you are all pleased at the complete success of their mission, and in regard to which the first minister will doubtless take the house into his confidence at a later juncture. It is a matter of common knowledge that until the recent Dominion election British Columbia could not even secure common justice at Ottawa. However, times have changed and now only required an explanation of the position of British Columbia by the visitors to convince Hon. Mr. Borden and his colleagues that a speedy solution of the matters in dispute between the two governments for so many years could be speedily reached on a basis of honor to both. One result of this mission is that the vexed question of the administration of water within the Dominion railway belt has been amicably settled and all possible conflict of water records will be decided. I understand that a bill will be introduced this session making all these complex matters clear by the transfer of the water administration in this belt to the provincial authorities."

"I think that you will all agree with me that the government has displayed broad constructive statesmanship in its decision to extend the railway policy in a most judiciously inaugurated way."

eral years ago. The fruits of that policy are already apparent in the railway activity prevailing on Vancouver Island and on the mainland. The Canadian Northern Railway is making remarkable progress and we are assured that the coast and prairies will be linked by the new line before the end of 1912, well ahead of the time fixed on by the premier when he brought down the policy which resulted in the building of this line. The expenditure of the Canadian Northern Railway in British Columbia last month amounted to \$250,000, and the effect of this large distribution of money is already stimulating every line of commercial activity. The C. P. R. is also doing its share in opening up Vancouver Island; it has built the Alberni branch which was opened a few days ago to traffic and it now proposes further extension in the near future to the north in the direction of Campbell river and on to the northern extremity of the island. At the same time the Canadian Northern is steadily reaching out from Victoria by an extension which will open up equally rich regions. The possibilities for the development of Vancouver Island are almost inconceivable."

New Railway Policy

"I am sure that when the premier takes this house into his confidence on his new railway policy it will be found to be of the greatest importance to the province as a whole. The premier has already publicly intimated that arrangements will be made so as to ensure the construction of the railway from the coast through the great northern hinterland to the Peace River district. The people of the coast have not been slow to appreciate the possibilities of the proposed line. Public bodies have with one accord declared in favor of a railway through the center of the province to the wheat fields of the Peace River district. Such a line as is proposed will serve the double purpose of opening up the intermediate region as well as finding an outlet for the surplus products of the millions of acres of land within British Columbia on the eastern side of the Rockies. Edmonton is looking with longing eyes in the same direction. The superior advantages offered by a short rail haul along the natural water grade to this coast are obvious and I look for the products of the entire Mackenzie river basin to seek export via this coast in the probably 10 years' time there will not be such a thing as free farm land on the prairies. Then British Columbia will come into her own and there will be a great trek to the lands of this province—such another as there has been to her cities during the past few years. Our hinterland is rich and there is a water grade from it to the coast and I look for the time, and it is not far distant, when all the products of that country will seek the coast for distribution."

"Thanks to the foresight of the minister of lands, the newcomer will find large areas of surveyed lands available for either pre-emption or purchase. These are ready for any great rush of settlers that may take place. For a country boasting of such a wealth of agricultural resources as does British Columbia the province, last year made a poor showing through the importation of \$14,000,000 worth of foodstuffs. I hope that condition will not exist long; I hope that British Columbia will soon be in the proud position of being able to export all the foodstuffs which it is possible to grow in these latitudes."

Vancouver to Nelson

"I am heartily in favor of the extension of the government railway policy in the direction of securing direct railway connection between the coast and the southern interior by means of a line across the Hope mountains. The Kettle Valley line is doing important work under its contract with the government but I would like to see a railway from Vancouver to Nelson that would shorten the time of the journey between the two places by 12 hours as compared with the present schedule. Such a railway would be of great advantage to the coast cities of British Columbia."

"While I am not oblivious to the splendid progress made by Victoria and other cities of the province, and in passing I wish to congratulate Victoria on the very satisfactory arrangement that has been effected regarding that everore in the centre of the city, the Songhees Indian reserve. That this matter should have been so amicably arranged shows that this government is ever ready to afford the most generous treatment to the aborigines. I see the Indians have set up what I consider is a preposterous claim to the ownership of the lands of the province and that they are aided and abetted in their efforts by some white people who are not so well acquainted with the true state of affairs in this connection as they might be. But, Sir, while I agree with the action of the government in dealing with these matters, a generous spirit I think that the Indians might as well make up their minds that they have to step aside for the white races; they cannot hope to compete with the white races any more but that the weak can run against the strong. I do not like to appear uncharitable but it appears to me that the problem has only one solution."

"Referring to the progress which has been made by the cities of British Columbia during the past year I trust I am justified in taking a pardonable pride in the remarkable progress made by the city of Vancouver. I am not one of those who believe that the growth of any city menaces the future of any other community, and I am sure that the same sentiments are entertained by other members of this house. I should like to do my share in dissipating an erroneous impression that has got abroad that the city of Vancouver owes its progress to a real estate boom, and that a period of reaction, if not of financial stringency, is bound to set in sooner or later. Such an idea is due to a misapprehension of the facts. The phenomenal growth of Vancouver is due to more far reaching economic causes. Vancouver is a seaport and an industrial centre; it is the western terminus of the C.P.R. Is the prospective terminus of the Canadian Northern railway as well as the Canadian portion of the Great Northern railway. We are also on the

Saturday, January 13, 1912

AN IMPORTANT INTERVIEW

We have a very interesting interview this morning with Mr. E. J. M. Nash, special agent of the Royal Mail Steam Packet company. Its importance consists in the fact that so high an authority on shipping realizes the great strategic prestige of the port of Victoria. Mr. Nash must not be understood as making any promises for his company, or as indicating what the details of their course of action will be. He spoke simply as one in search of information, and who for the purpose of eliciting it was willing to talk freely on all subjects connected with ocean transportation. The great value of what he said was his confirmation of the attitude taken by those persons in Victoria who have contended that the city may become one of the great ocean ports on the Pacific coast.

Mr. Nash says that the future of the port depends largely upon the railways. He was quite definite in saying that there would be no object for ships to go beyond Victoria if outgoing and incoming cargoes could be handled here as expeditiously and as cheaply as elsewhere. In other words, if the ocean carriers could unload their cargoes here and send them eastward as cheaply as from mainland points, ships would prefer this port to all others. This makes clear the pre-eminent importance of securing the best possible rail connection with the mainland. It is all a question of facilities. When we have an outer harbor here such as is contemplated in the plans for which \$500,000 has been appropriated as an initial expenditure by the Dominion government, no valid reason will exist why a great ocean liner should ever go past Victoria to unload a cargo destined for points on Canadian railways or why outgoing cargoes cannot be assembled here as cheaply as at any other place on the coast. Mr. Nash's remarks, although necessarily very guarded, and although they are not to be understood as expressive of the policy of his company, make it abundantly clear that this conclusion is correct.

In connection with foreign trade, the fact that the greatest timber area in the Northern Hemisphere will shortly be traversed from end to end by railways terminating at this city is convincing evidence that the great trade in this line to be built up on this coast may to a very large extent be handled from Victoria.

Mr. Nash's statement in regard to immigrants is of great interest. If it will be possible to carry immigrants from the United Kingdom to British Columbia, via the Panama Canal, for \$60 a head, the result will be remarkable. The country will settle up with unprecedented rapidity. The whole interview is exceedingly encouraging to those who are laboring for the advancement of Victoria, or who have invested in property here.

TRAMCAR SERVICE.

Among the matters to which the incoming city government would do well to direct its attention is the present and future street railway service. Street cars are no longer a luxury or even a convenience only; they are a necessity. The B. C. Electric Railway Company has a valuable and useful franchise; it therefore stands in the position of a corporation controlling a public requirement. Hence it is the duty of those who represent the citizens in their collective capacity to employ all reasonable means to secure the best service that the company can be expected to give. This remark is not made in any spirit of hostile criticism of either the company or the municipal government. It is only a statement of something that every one will admit as soon as it is advanced. The B. C. Electric is a business organization. Its management is responsible to the stockholders whose investments they handle. If these do not show a profit, it will naturally be difficult to secure additional money for investment. But the public needs all the accommodation it can get. Thus at first sight the interest of the management and of the public would seem to be to a certain extent antagonistic, but such is not really the case. While the company owns the street car franchise, it is in the public interest that it should be profitable, because extensions and improvements are constantly needed

and these are not likely to be provided by a company that is not making a reasonable profit upon what represents its existing investments. On the other hand, it is to the interest of the company to enlarge its service as much as is consistent with good business management, especially in a new and rapidly growing community such as Victoria and its environs.

The above observations are mere truisms, and they are only made to lead up to the suggestion that the relations between the city and the company ought to be friendly, and yet the city government ought to press constantly upon the company the necessity of extending and improving its service. The reduction of the fares on the Esquimalt line shows what can be done by friendly pressure intelligently exerted. The City Council took no part in the agitation for this change, and yet it was a matter with which that body might very properly have concerned itself.

The effect of well directed pressure backed by public opinion is very cogent. We have at present no particular thing in mind. As far as we know the company has no new plans in contemplation, and we have not yet given the subject sufficient consideration to propose anything new that seems to be more pressing than anything else. Our point is that the City Council ought not to wash its hands clean of the tramway service, because it is not municipally owned; but should take a very lively interest in demonstrating to the company the advisability of bettering the accommodation it is providing. This work ought not to be approached in any spirit of hostility, for that may defeat the object aimed at; but in a spirit of reasonableness, asking nothing which the company cannot be expected to do as a business organization with large investments in a prosperous and growing city. Practically nothing has been done in this direction by the city authorities for a long time. Whatever improvements have been made in the service have been either the result of a conviction of the company that the time was ripe for making them, or because of pressure exerted from other quarters. So far as we can now recall the City Council has been wholly apathetic. And yet this is one matter upon which it might well speak for the citizens.

B. C. TELEPHONE RATES

In explaining its position in proposing to raise its rates on business telephones to the Vancouver Board of Trade the B. C. Telephone Company claimed that such an increase was necessary owing to the fact that it was compelled to pay more wages to its employees. We are credibly informed that some eighty linemen in Vancouver will be affected by the increase, and each of these to the extent of 25 cents a day. Supposing that these men work a full thirty days each month then the total increase in wages paid them will amount to \$600 in that period of time. There are at a very conservative estimate 5,000 business telephones in use in Vancouver. As the proposed increase in rates is \$1 per month this will give the company from its Vancouver end alone an added revenue of \$5,000 monthly. Yet out of this, as far as it is possible to ascertain only \$600 in additional wages will be paid. In Victoria it is doubtful if there are more than thirty linemen, and it is natural to suppose that they, too, are to benefit through increased wages. But this increase, similarly to Vancouver, will be altogether out of proportion to the additional revenue which the company will secure.

There is no plausible argument which can be put forward that can satisfactorily explain the company's stand in the matter of increased rates. The growth in population has necessitated the expansion of the system, but the expenses of such growth will be met out of a largely increased subscribers' roll, and should not be laid at the doors of those who already use the service, and who have made its returns show such a substantial profit.

We are glad to see that the board of trade has taken up the question. It is one of such grave importance to the business community of the province that it is a subject which might also be considered by the government. There is little doubt that it will be eventually, as the agitation against any increase in the present rates is growing in volume daily.

SITE FOR PROVINCIAL JAIL

We had occasion a few days ago to point out the desirability of having a new provincial jail for this district established on one of the Gulf Islands. Commenting on this proposal it has been said that the inconvenience and cost of maintaining constant communication with an island jail was against the plan. It is rather difficult to see how this can be. The government has a launch which could be used for the conveyance of prisoners. Telephonic communication has been established with the Gulf Islands, and the line of communication could be easily linked up with whatever island the government might select. From our standpoint we see everything in favor of locating these serving sentences from

the rest of the community, and in no way could this be done better than establishing a jail on a small island where the possibilities of escape are reduced to a minimum. The residents in the neighborhood of the Topas avenue institution are, we understand, petitioning the government to have the jail removed from that district, and there is not the least doubt that the citizens are anxious that it should be placed at some point outside the city limits. Victoria is growing rapidly in every direction where expansion is possible, and if the jail is established anywhere in the immediate vicinity of the city the time may soon come when it will be again necessary to remove it further afield. The most simple solution would seem to be to select an island which shall be owned by the government, and where no communities can spring up in the immediate neighborhood. We think the feature as to the cost and inconvenience has been exaggerated. At all events the matter is worth the careful consideration of the government.

V. I. DEVELOPMENT LEAGUE

The Vancouver Island Development League had a very interesting session yesterday. This organization has done great work in the past, and is in a fair way of doing greater work in the future. Several matters of very great importance were discussed at the meeting, and to some of these we shall give attention in later issues of the Colonist. For the present we only shall express what we know is the general opinion of the public, and say that the work of the League is fully up to the standard that was expected when the organization was formed, and that evidence is constantly forthcoming that its able secretary, Mr. Ernest McGaffey, is rendering the public very excellent service.

THE FORCE OF POETRY

Someone thought he could improve upon what was written, and so he changed the word "rack" in a Shakespearean quotation in yesterday's Colonist to "wreck." But "rack" was the proper word to use. At least, that is the word that Shakespeare used. When you see in the sky light fragments of cloud that are being hurried forward by the wind you are looking upon rack. Wreck is an old form of spelling wreck, which is a very different thing from rack. The error in spelling enables us to point out the beauty of the Shakespearean imagery. There has been a storm and the towers are cloud-capped. Here is the poet's first thought. Then he turns aside to speak of other notable things and how evanescent they are; but in conclusion his mind reverts to his first idea. To have said that the towers, the palaces, the temples and the world itself should pass away and leave not a wreck behind would be banal; but the immortal poet makes us think of the storm cloud dissolving in the air until there is not even a little scudding whisp of it left. There is nothing more exquisite in all poetry. It fills the mind with a picture more vivid than artist can paint. It is the ability to produce such an effect in a few words that distinguishes the poet from the mere versifier. When Tennyson closed his wonderful word picture beginning "Break, break, break" with the lines:

"But the tender grace of a day that is dead
Can never come back to me,"

he crowded a lifetime's experience into them; and when Elizabeth Barrett Browning, speaking of Napoleon, said that dying men whispered his name as God's, she told us in a line more of the feeling of the soldiery of France towards their Emperor than could have been said in a chapter of prose.

The Halifax Herald has our sympathy in its heavy loss from fire. The King and Queen are on their way home again. We voice the sentiments of all true Britons everywhere when we express the profoundest satisfaction at the success which attended this unprecedented journey, and our hope that they will have a safe return.

A court in Missouri has decided that a divorced woman may "kiss in moderation without losing her alimony." Just what right has the fellow who pays the alimony to interfere with the obligatory performances of his ex-wife. Is alimony in Missouri a substitute for kisses?

There will be general accord with the sentiment expressed by Mr. Cuthbert, alderman-elect, at the Board of Trade yesterday, when he said that the board, the Real Estate association, the City Council and all other organizations should co-operate to the best of their ability in everything calculated to advance the welfare of the city.

Some anxiety was expressed at the Board of Trade yesterday as to whether the \$500,000 for harbor improvements was simply for the Inner Harbor. We think no one need have any doubt on this point. This appropriation is only for the beginning of the great work of making Victoria a seaport of the first class. Plans are being prepared by Mr. Coote and from all we can learn will embrace a general system of improvements for the outer and inner harbor. The total cost will be upwards of three million dollars, and the work will be commenced within a short time.

OPENS DEBATE ON ADDRESS

(Continued from page two.)

even of attracting the G.T.P. with its
proposed branch line from Fort George.
These are some of the reasons why Van-
couver is a propitious city and why she
is destined to become a great city in
every sense of the term. The rise in
property values was only incidental un-
der the circumstances. Some eastern
publications have been particularly free
in criticising the advance in values and
have been disposed to regard with a
certain amount of cynicism bona fide
transactions that have taken place in
Vancouver within the last few months.
It would seem that if a phenomenal rise
in real estate values is to be taken as
an indication of impending disaster the
city of Toronto must be in the same
boat with Vancouver.

Here Mr. Watson quoted from a state-
ment in a Toronto newspaper to the ef-
fect that a sale had been negotiated for
the transfer of the northwest corner of
King and Yonge streets at \$13,000 a foot
for the King street frontage of 60 feet,
said to establish a record for the value
of real estate in Canada.

"Doubtless it will be some years be-
fore values on the principal streets of
Vancouver reach \$13,000 per front foot,"
continued Mr. Watson, "but whether
they ever go to that or not, the only
feeling that we have are those of pride
to think that another great city of our
fair Dominion is making such wonderful
headway."

Metropolitan Centre.
"Speaking still of Vancouver, Mr.
Speaker, that from a city of less than
43,000 people less than six years ago,
Vancouver has become a metropolitan
centre of over 110,000 people, with al-

most \$9,000 additional population within
the limits of the area now designated
Greater Vancouver, and sharing in the
same complex life as the parent city
on the shores of Burrard Inlet.

"Our prosperity is revealed in count-
less ways. The statistics prepared by
municipal, provincial and federal officials
all tell the same story of expansion
and increasing prosperity. I will deal
with some of these figures in the bal-
est outline. For the subject is not one
that could be dealt with within the lim-
its of my speech this afternoon."

"The total assessed value of Van-
couver for the year just ended reached
the magnificent figure of \$102,501,000,
as compared with a total of \$138,000,000
for the year 1910.

"The revenue from the record of bank
clearings, a true barometer of financial
and industrial progress, we find an
equally wonderful showing. Bank clear-
ings in Vancouver increased from \$444-
\$48,000 to \$484,000 or at the rate of
about \$100,000,000 and compare favor-
ably with the gross total of \$522,400,000
for Seattle, and \$557,464,000 for Port-
land, two larger cities, for the same
period.

"Our building permits for 1911 show-
ed a value of \$17,652,000 as compared
with \$13,150,000 in the previous year,
an increase of thirty-three and a third
per cent and look very imposing along-
side Seattle's paltry \$7,491,000 and com-
pare favorably with Toronto and Win-
nipeg.

"The revenue from the city water-
works likewise shows an increase of
\$100,000 over 1910.

"The healthy condition of real estate
is also reflected in the books of the
Land Registry Office at Vancouver; the
total revenue for the past year was
\$289,337, or an increase of 30 per cent.
over the revenue of 1910.

"The returns from our gas revenue
in Vancouver show the phenomenal in-
crease of \$2,000,000 for the year; the re-
ceipts of the year just closed were \$7-
102,000 as against \$5,004,000 in 1910,
and so it goes. Mr. Speaker, all of which
shows what I have already contended,
that the great growth of Vancouver—a
growth which it is difficult for some
people to understand—is fully justified
by existing conditions.

"I wish to congratulate the minister
of education on his efforts on behalf
of the University of British Columbia.
The clearing of the site at Point Gray
is well under way and I understand a
grant will be asked in order to ensure
the formal opening of the university
for the fall term of 1912. I see no rea-
son why British Columbia, thanks to
the splendid endowment, should not possess
a seat of higher learning that will en-
able us to educate our young people at
home.

"And now, sir, just a brief reference
to the census returns supplied us a few
months ago. It will be apparent to
everyone that the West is increasing in
population in greater proportion than
the East, and I would not be surprised,
familiar as I am with the spirit that
prevails in our western provinces peo-
pled by men with iron in their blood,
that in the course of one or two decades
the West will contain the greater num-
ber of the population of this country.
And that being so, it behooves
us to see that there is no surrender of
our rights under the British North
America Act, and that we get our increased
quota of members and senators in the
federal house.

"In conclusion I say that British Col-
umbia is worthy of the best that the
greatest of our public men can do for
her. This is a country of imperial pos-
sibilities and is not a matter of great
congratulation that at this juncture her
affairs are in the hands of strong, cap-
able men, men of courage and fore-
sight. The foundations for the future
are being laid and it is essential that
they should be broad and deep. And
now, Mr. Speaker, I beg to move that
an humble address be presented to His
Honour the Lieutenant Governor in reply
to the speech from the Throne." (Ap-
plause.)

Mr. Lucas

The member for Yale, who also was
received with an enthusiasm indicat-
ive of his established popularity
among his fellow legislators, joined
with Vancouver's second member in
expressing his deep sympathy with
Mr. Speaker Eberts in his recent se-
vere illness and expressed in felicitous
terms his pleasure in seeing the vet-
eran parliamentarian, who presides
over the deliberations of the assembly
restored to his usual good health. He,
too, extended his thanks to the pre-
mier for the honor which had been
conferred upon him in placing the
address in his hands, an honor which
modestly he took rather as a compli-
ment to the riding which it was his
good fortune to represent. He con-
gratulated the second member for
Vancouver also upon the able and very
comprehensive manner in which he
had dealt with the speech from the
throne and commented appropriately
upon its contents therein. So com-
plete and efficient had Mr. Watson's
contribution to the debate been, indeed,
that for his own part he might almost
be content to sit down with the sincere
expression that he seconded all that
had been uttered by Mr. Watson—as
well as the formal resolution.

"However," Mr. Lucas continued, "I
may be permitted to deal very briefly
and retrospectively with a few of the
outstanding events of the year just
ended, and note what appear to me to
be the relations of those events par-
ticularly to our national and our
provincial progress. Deservedly con-
spicuous among these events must be
noted the coronation of His Majesty
King George, at which great cere-
monial in all parts of the empire were
represented in the city of London, and
none we may be sure with greater tact
and adequacy than British Columbia.
The coronation and the manner in
which its celebration was joined by
the representatives of all the out-
lying portions of the empire impress
me as directing attention to the ten-
dency, now more marked than ever be-
fore, of the British Dominions toward
the achievement of unity imperiphet-
ic. The appointment of Sir R. B. B.
the Duke of Connaught as representa-
tive of His Majesty in this Canadian
Commonwealth is also a notable event
in the same connection—a long step
toward the achievement of unity im-
periphetic. The appointment of Sir
broader Britain, the succession of

events now transpiring all tending in
the ultimate to imperial federation, a
condition absolutely essential to the
future complete and growing achieve-
ment in the evolution of the British
Empire. For myself I cannot com-
prehend such a condition as Great Britain
being at war with any foreign power
and any part or unit in the empire re-
garding itself as disinterested any-
more than such a condition as any
part of the empire being at war with
a foreign foe and Great Britain a dis-
interested party. It is my own opinion
that all parts of the great empire
should contribute in fair proportion
toward national defence, and the in-
evitably necessary in this will come
about naturally and more rapidly
when imperial federation has become
a fact accomplished than could be
otherwise possible.

Agricultural Industry

"Concerning the marked and gratify-
ing progress of our own country, I
fully agree with all my colleagues from
Vancouver City he said. There is,
however, one great industry which
has not shown that degree of desirable
progress which might have been hoped
for and expected—this comment ap-
plying not only in British Columbia
but equally in the sister province of
Ontario and in many of the states of
the Union to the south. Indeed the
condition of the agricultural industry
is found to be such that not long ago
some 15 or 16 of the American states
met to discuss the situation in its
weakness and attempt to formulate
some plan through the development of
which the agricultural industry might
be made more attractive and its de-
velopment promoted, instead of the
congestion of the cities being yet for-
tunately averted. What present con-
ditions in this industry are may be
judged from the fact that the returns
of the late census show that Ontario,
while growing and developing rapidly
in other directions, is virtually at a
standstill in the domain of agriculture
although this is described as the
backbone industry of any stable

country. The difficulties appear to
consist largely in general lack of sci-
entific methods as applied to farming,
the generally limited financial re-
sources of those who till the soil, and
the necessity for the introduction of
co-operative principles in profitable
marketing. Attention to those being
given, agriculture should make es-
pecially great strides in this province
of British Columbia, our soils and mar-
ket conditions being so pecu-
liarly favorable, despite which we do
not yet produce in British Columbia
even sufficient for our own consump-
tion demands. This condition it is
an axiomatic economic fact that it should
be our determination to remedy at the
earliest opportunity.

"In connection with the recent visit
of the prime minister, the attorney
general and the minister of lands at
Ottawa, congratulations are also in
order, to the people of this province,
as a first result is already in evidence
in the giving to us of what is prac-
tically control of the lands of the rail-
way belt. Under provincial adminis-
tration, to secure which necessary
legislation will undoubtedly be in-
troduced, we may look for such official
action as will greatly stimulate de-
velopment and the influx of a large
body of desirable settlers, together
with an immediate and satisfactory
adjustment of all water right differ-
ences.

Railroad Construction

"It is perhaps superfluous for me to
say that I am in hearty accord with
the enunciated principle of the gov-
ernment in encouraging railway con-
struction and the resultant growth
of population and productive indus-
tries. I thoroughly believe in the
building of railway systems to serve
every important section within the
province. We all remember well,
when legislation was promised for the
promotion of construction of the
Canadian Northern Pacific, how we
looked for it with the keenest interest.
That legislation was accomplished,
and we have already seen the earliest

of the result. It is visible today in
active construction operations virtu-
ally in all parts of the province, west to
east, and perhaps nowhere more con-
spicuously than in my own riding of
Yale. We cannot but contrast the
rapidity of progress that is being
made by the Canadian Northern Pac-
ific in this province with the manner
in which the building of the Grand
Trunk Pacific has gone forward, and
we cannot but note the evidence of
superior wisdom displayed in the
contract made by this provincial gov-
ernment to that demonstrated in the
federal bargain under which construc-
tion of the G. T. P. was secured. I
hope to see railway construction con-
tinue wherever arteries of communi-
cation are needed for development of
the latent resources, even to the most
remote confines of British Columbia,
so that all the country may speedily
be brought into touch with the com-
mercial centres of the Pacific coast.

"Congratulation to the honorable
the provincial secretary and minister
of education is also, I feel, decidedly
in order, upon the energy displayed in
so advancing plans for the university
establishment that we can be promised
an opening of its classes in 1913. I
have also noted with special apprecia-
tion the announcement made by the
minister that a faculty of agriculture
will be included in this university
scheme. I fully believe that the in-
troduction of more scientific methods in
farming will not only make the agri-
cultural industry one of much greater
profit to those engaging in it but it
will at the same time give the pro-
fession of the agriculturist a status
making it more attractive, and tempt-
ing to engage in it a much greater por-
tion of the population.

The Settlement

"With respect to the settlement
which will be offered to the settlers
of this day, I believe that the gov-
ernment has made a most judicious
arrangement, and I am sure that the
settlers will be well satisfied with the
terms offered them.

I have the honor to represent is, I
may say, advancing with as great
rapidity and sureness as any in the
province. From Agassiz to Ashcroft,
along the main line as laid out, this
development may be attributed no
doubt in part to C. N. P. construction,
but in the Nicola district, the present
progress and prosperity is the nat-
ural outcome of the development of
the rich coal measures, which now
are taking an important place as con-
tributors to the fuel necessities of
the country. When the minister of
works and the finance minister confer
upon the estimates, I feel assured that
the district of Yale will receive its fair
share of the expenditures requisite for
the development and continued pros-
perity of all parts of British Colum-
bia. I have great pleasure, Mr.
Speaker, in seconding the motion."

The debate at this juncture was
adjourned by Mr. Brewster, who will
continue when the house meets again
at 2 o'clock on Monday.

Is your husband cross? An irritable,
fault-finding disposition is often due to
a disordered stomach. A man with
good digestion is nearly always good
natured. A great many have been per-
manently cured of stomach trouble by
taking Chamberlain's Tablets. For sale
by all dealers.

NEWS OF THE CITY

New Chinese Flag—According to advice received by the local Chinese, the Chinese Republic government has adopted a new flag. White and yellow stripes are added to red, white and blue of the previous emblem, which will be retained as the official flag of the navy.

Agricultural Associations—Golden and Revelstoke districts were represented among the organizations recently obtaining provincial incorporation under the agricultural associations act of last year. Golden having just incorporated in this manner its District Farmers' Institute and Revelstoke its Agricultural Association.

Notaries Public—Messrs. Hugh A. Haggie of Vernon and James E. Beck of Vancouver have been appointed notaries public and commissioners for taking affidavits within the bounds of British Columbia, while John A. Macdonald, Donald Smith and Francis P. McDonald, of Vancouver, have been accredited as commissioners for the taking of affidavits.

Building Permits—Building permits were issued yesterday by the building inspector to Jesse M. Warren, dwelling on Glasgow street, to cost \$100; to C. L. Welch and F. S. Bennett, dwelling on Oliver street, \$2,000; to C. Lawrence, addition to dwelling on Calcutta ave., \$600; to P. D. McDonald, dwelling on Howe street, \$2,000; to G. W. McIntosh, dwelling on Prior street, \$1,000; to Messrs. P. Burna and J. A. McDonald, retail premises on Store street, \$2,000.

Old Boys' Dinner—The members of the B. C. Old Country Public School Boys' association held their annual rally and dinner in the Empress hotel tonight. Those who intend to be present will foregather in the Empress rotunda at 7:30, and dinner will be served at 8 o'clock sharp in the large dining room, with the Hon. C. E. Foyle, K. C., president of the association, in the chair. The guest of the evening will be the Rev. Dr. H. B. Gray. The speeches will be followed by impromptu songs, recitations and other speeches, and the occasion will necessarily be one spent in reviving happy memories and in bringing together the "old boys" from the public schools that have been one of the foundations of imperial solidity and success.

Installation of Foresters—Court Harmony, No. 4046, had a very enthusiastic gathering on Thursday evening last, when the first annual installation of officers was held. Deputy Supreme Chief Ranger Beaven, of Vancouver, took charge of the installation ceremonies. The officers installed were as follows: Court Secretary, H. A. Leck; P. C. R. C. R. H. A. Leck; R. A. L. Neeland; V. C. R. John Willmer; R. S. F. H. Neeland; F. S. J. O. Welch; treasurer, L. Archer; orator, E. Raybone; organist, E. Parsons; S. W. J. B. Palmer; J. B. R. J. Young. This court was first installed on the 12th August last with a membership of thirty-five, which has doubled within the past few months. After the installation there were some interesting addresses from the D. S. C. R. C. and other officers followed by a smoker, and a general good time was enjoyed by all.

The Police Court—In the police court yesterday morning two Russians, Thos. Waktup and Alexander. Messick, were charged with striking a countryman, but the plaintiff being ill the case stood over until this morning. Henry Garbutt, who has been awaiting a hearing for some time on the charge of having entered the home of Mrs. Macdonnell with felonious intent, was discharged on it being announced by his counsel, Mr. J. S. Brandon, that Mrs. Macdonnell, the only witness for the prosecution, had died on Thursday night. While the charge would of course have to be withdrawn, he wished it made clear that his client had no evil intent in entering the house, as he had been a frequent visitor to rooms there. The case of Sam. Lee Kong, one of the managers of a Chinese theatre, was fined \$25 for overcrowding.

Keld on Forgery Charge—Alleged to have forged the name of the man who had befriended him to several cheques which he passed, H. C. Swain was arrested yesterday afternoon by Detective Frank Murray on a charge of forgery. He will be arraigned in the police court this morning. Swain is alleged, some time ago was employed by Mr. Z. M. Hamilton, real estate agent, who in addition to giving him the employment which he earnestly sought, also gave him a cheque for \$10 upon the Eastern Townships Bank to assist him. After working for a time for Mr. Hamilton Swain, it is claimed, secured a number of his employer's cheques, and forging Mr. Hamilton's name to about a dozen of them, passed several upon the bank as well as upon one or two individuals, who took the cheques for genuine. Swain claims he had been drinking, and that he was not himself when he signed the cheques. He claims to come from the southern states, but little is known of his career before his arrival here.

E. J. Haberer Missing—Friends have become alarmed over what they believe to be the mysterious disappearance and possible death of Emanuel Julius Haberer, formerly a Seattle newspaper man, who was well known in Victoria. The last heard of Haberer was when he issued a bank draft on August 2, 1911, from Manila against a letter of credit granted by Kreleheimer brothers, wholesale cigar and liquor dealers, this city prior to Haberer's departure for the Orient in June of last year. When Haberer left last summer it was with a view to formulating a colonization scheme whereby it was intended to operate and develop sugar lands in the Philippines. He was also investigating commercial possibilities in China and Japan for local financial interests. The fact that Haberer has drawn so small a portion of his credit allowance leads his friends and relatives to believe that he may have met foul play. His three drafts indicated that it was his plan to draw money only as he actually needed it, and since this fund has been untouched for five months, fears are entertained for the young man's safety.

Resident Devised—Tenders have been invited by the Department of Public Works for the erection of a large one-room frame schoolhouse on Johnston road, in the Delta district, these being receivable up to noon of the 21st instant.

Amendment Sought—Although there have been references in the public press recently to resolutions adopted at the late convention of miners held in Ymir asking for amendments to the provincial strike boiler inspection act so as to provide more adequately for labour, the competence of men engaged in the operation of electrical as well as steam machinery—particularly where such machinery is employed to operate hoists in mining operations—has not been taken into consideration. The amendment to the act, therefore, has no cognizance of them.

Development Banquet—In the Empress hotel last night was enacted the fitting sequel to the annual meeting of the Victoria Development League, when the Victoria branch held a banquet in honor of the delegates from the other parts of the island. In all, there were about 20 gentlemen present, and it need scarcely be said that the function proved a most enjoyable one, brief and pointed speeches being delivered by practically everyone at the table. Mr. A. W. McCurdy, president of the league, presided over the gathering, and expressed the appreciation of the local branch at being able to have so many representative delegates with them at this time, and in turn, the delegates from the other branches expressed their gratification at the hospitality shown them. It is likely, as a result of the unqualified success of the impromptu banquet that it will become part of the annual ceremonies of the league.

New B. C. Companies—During the week that ends today there have been added to the register of British Columbia joint stock companies the Anti-Tenement Co., Ltd., Barron company, Ltd., Canadian Mainland Construction & Investment Corporation, Ltd., Cleland-Dibble Engraving Co., Ltd., Gauthier & Co., Ltd., Howe Sound Gravel Co., Ltd., Jervis Hot Springs Co., Ltd., Marriot & Falloway, Ltd., Port Mann Properties Ltd., Pride of the West Knitting Mills, Ltd., Vancouver Paint & Refining Co., Ltd., and West Vancouver Stores & Trading Co., Ltd. The newly licensed extra-provincial companies include the Canadian Corporation, Ltd., Macfarlane Lang & Co., Ltd., R. C. Jamieson & Co., Ltd., Connecticut Fire Insurance Co., German-American Insurance Co., Law Union & Rock Insurance Co., London Mutual Fire Insurance Co., Phoenix Assurance Co., and Springfield Fire & Marine Insurance Co. Changes of name have been authorized on the applications of the Boothby & Forshaw Motor Car Co., Canadian National Electric Ltd., and Pacific Coast Construction Co., Ltd.

Industrial Peace—Industrial peace was the subject of a formal address delivered by Mr. F. H. Scullin, of the Canadian Industrial Peace association before the members of the Victoria Board of Trade at the latter's quarterly meeting yesterday afternoon. Mr. Scullin explained that the object of the organization which he represented was to bring the employers and the employees together before a specially selected committee, whose sole interest was to settle any dispute that might arise. He stated that a large number of prominent employers, as well as a large number of labor unions, had endorsed the scheme of the association, and he had come to British Columbia with a view to opening branches, and representing the idea among the employers and employees of the province. The particular feature about the methods of the association in settling trade disputes was its protection of the general public, whose interest, as a general rule, was never considered by either of the contending parties. The fact that was all the more remarkable because neither the one side nor the other could hope for anything without the indulgence of the public. He commended the association to the members of the board as a movement that should inspire the sympathy of every employer who had the interest of the public and the community at heart. No officer of the association could accept a salary for services rendered, he said, and suggested that that fact alone was sufficient to suggest to those present the fair and square nature of the association's work. It was the public he wanted to represent, and he had the assurance of Mr. Samuel Gompers and other prominent labor leaders as well as conspicuous employers of labor that they could never hope to win a strike unless they had the sympathy of the public. What was wanted, therefore, was an organized public opinion, so that neither employers nor employed could rush into a strike or a lock-out without incurring the disfavor of the public. A resolution endorsing the plans and work of the association and commending its human and patriotic efforts to all fair-minded men for their encouragement and co-operation was unanimously adopted after several members of the board had debated several points with the speaker.

THE WEATHER

Metereological office, Victoria, B. C., at 8 p. m., January 12, 1912.

SYNOPSIS.
The storm area mentioned yesterday is now centered over Northern British Columbia. It has caused southerly gales on the coast and sound and heavy rain southward to California, and moderate weather inland to the Rockies. Intense cold continues in the Athl and Yukon districts while in the Prairie provinces the weather is moderating.

NEWS OF THE CITY

Province Gets Title—A Dominion order-in-council has recently been issued conveying title to the Evening Star mineral claim to the province of British Columbia.

Press Gallery Meeting—A meeting of active journalists engaged in the British Columbia parliamentary press gallery during the noon of Monday next for the election of officers for 1912 and the transaction of business incidental to the work of the parliamentary workers of the craft.

Extradition Case—In the case of Arthur Tiderington of Walla Walla, who is resisting extradition on a charge of embezzlement, the evidence was closed yesterday, and counsel for the defence addressed Judge Lampman, who is acting as commissioner in the case.

Extradition Case—In the case of Arthur Tiderington of Walla Walla, who is resisting extradition on a charge of embezzlement, the evidence was closed yesterday, and counsel for the defence addressed Judge Lampman, who is acting as commissioner in the case.

Ladies' Society—At the annual meeting of the Ladies' Society, of St. Paul's Lutheran church, officers were elected for the year, and reports of the past year's work submitted. The society has in the past year expended considerable sums in the interests of the needy, and has been successful in raising a sum of money to the pastor. With the membership and interest steadily growing, the society looks forward to another year of successful work, believing, however, that the raising of funds is not the highest aim and purpose of this society, the devotional work of the monthly meetings will be supplemented by a study of character sketches of the women of the Bible.

Luther League—After a little more than half a year since its organization, the Luther League of Wednesday last held its annual meeting, which broke all records in point of attendance. New members were admitted, bringing the total members, exclusive of visitors, above the 30 mark. Quite a few friends of the league and the hostess, Miss Aldernach. The treasurer's report being encouraging, a portion of the funds \$20, was at once voted towards the building fund. The league adopted the emblem of the International Association of Luther Leagues as its emblem. The following were the new officers for the year: President, Mr. Paul Schmeltz; secretary, Miss K. H. Hargrave; treasurer, Miss Martha Schmeltz; reporting secretary, Mr. E. H. Browning. The election of officers and other business being transacted, the meeting resolved into a social gathering, at which many enjoyable games were indulged in, and a very happy evening was spent, at the close of which refreshments were served by the hostess, Miss Aldernach. The next meeting will be held at the home of the pastor, Rev. Otter Gerlich, 1013 Macleure street.

OAK BAY VOTES

ON COUNCIL TODAY

Six Members for 1912 Will Be Elected Today by Voters of Municipality—Eight Candidates Out

Today the electors of Oak Bay cast their votes for the election of the six councillors to represent them on the council for the current year. There are eight candidates in the field. Mr. William Henderson, Mr. F. R. Pemberton, Mr. J. H. Greaves, Mr. J. J. Herlihy, Mr. McGregor, Mr. William Noble, all of whom sat on the council of 1911, and Mr. Herbert Stephen Lott, Mr. James Brown, and Mr. John Ernest Smart.

A vote will also be taken today on the bylaw authorizing an agreement with the city for the maintenance of the fire department for the protection of Oak Bay, including the question of the new fire hall. The poll will be open from 9 a. m. to 7 p. m., at the schoolhouse, Oak Bay avenue.

SOCIAL AND PERSONAL

The Misses Harrison were at home to a number of their friends at their residence on Mears street yesterday afternoon.

Mrs. J. A. McArthur will receive on Thursday, January 18, at number 12, October Mansions, and in future on the third Thursday of each month.

Chief Justice and Mrs. Hunter are leaving town on Monday to spend the week in the Terminal City, where the former will preside at the Court of Assize.

A very pretty dance was given on Friday, January 5, at the home of Mr. and Mrs. Blackburn, on Salt Spring Island. There were about one hundred guests present, and the music was provided by a band drawn from the neighborhood. The evening was much enjoyed by everyone, and concluded at the late hour with the singing of the National Anthem. Mr. John Sparrow acted as floor manager.

SAANICH ELECTIONS

Electors of Rural Municipality Will Today Select Council For Year

Today the electors of the municipality of South Saanich will decide upon the personnel of the municipal council which, for the balance of the year, will

Teel the Bagley Maesque Ball will be held as usual on February 14, Agricultural Hall—Car service all night.

conduct the business in the rural district. By the election by acclamation of Mr. Joseph Nicholson for a third time chosen head of the council, elections will be held only for councilman and school trustees. The keenest interest in the fight is being manifested by the electors of the district, and the fight promises to be a warm one. The roster of candidates is as follows:

For Wards

Joseph Nicholson, farmer, elected by acclamation.

For Councilman—Ward One

Frank N. Borden, fruitgrower, elected by acclamation.

Ward Two

George McGregor, shipowner and Wm. J. Scott, gentleman.

Ward Three

William E. Hill, farmer, elected by acclamation.

Ward Four

H. J. Dunn, fruitgrower; J. Freeman, farmer; R. Layritz, nurseryman; G. Rogers, farmer.

Ward Five

J. A. Grant, fruitgrower, and F. G. Quick, farmer.

Ward Six

A. E. Gale, fruitgrower, and J. Matthews, farmer.

School Trustees

William Campbell, farmer; M. Dunnett, fruitgrower; J. M. Mittler, clerk.

COMING EVENTS

Daughters of the Empire—The adjourned meeting of the Daughters of the Empire will meet at the Alexandra club, Tuesday, January 15th, at 2:30 p. m. This is the last meeting before the annual meeting.

St. James Church Social—The Women's Guild of St. James church intend holding a social evening on Thursday, the 18th, at the residence of Mrs. Perkins, "Alma Place," Michigan street. There will be music, games and guessing contests.

Natural History Society—A meeting of the Natural History Society will be held in the "Friend's" hall, Courtney street, on Monday evening next at 8 p. m. The special feature of the evening will be a illustrated lecture by Mr. F. Napier Denison on "Other Worlds Than Ours."

Other Worlds—Mr. F. Napier Denison, the well known natural expert of Victoria, will deliver an address on that interesting topic, "Other Worlds Than Ours," before the members of the Natural History Society in the Friends' hall, Courtney street on Monday night. Those who know Mr. Denison are confident that his address will be pregnant with interesting facts about the heavenly bodies, which he has been studying with being able to discuss in other than purely technical language. An additional feature of the address will be the exhibition of a fine collection of lantern slides which Mr. Denison obtained from the Royal Geographical Society on his recent visit to London.

LADIES' MUSICAL CLUB

First Concert in Six Weeks to Be Given This Afternoon in the Alexandra Club

After a six weeks' holiday the Victoria Ladies' Musical club will resume their tri-weekly concerts this afternoon. The programme is a very attractive one. Mr. C. Long who plays the cello solo will be heard for the first time in Victoria. Mrs. Gideon Hicks, Mrs. Garrett Smith, and Mrs. W. A. Jamieson are old favorites of Victoria audiences and are always welcomed by the audience. Mr. Morrison has not before favored the Ladies' Musical club at an afternoon concert and the committee greatly appreciate his kindness in consenting to sing for them. The concert will be held in the Alexandra club and will begin at 3:30. The following is the programme:

Song, "I Hear You Calling Me," Mrs. Marshall Morrison.
Song, "Winds in the Trees," Goring Thomas.
Song, "Erebe," Mrs. Gideon Hicks.
Song, "Erebe," Mrs. Garrett Smith.
Song, "A Counsel to Nink," Werkerling.
B. The Rosary, Mrs. Gideon Hicks.
Cello Solo, "Sur le Lac," Goddard.
Cello Solo, "Sur le Lac," Goddard.
Song, "Song of the Lord Henry Somerset," Mrs. Gideon Hicks.
Piano, "Conquellor," List.
Song, "O Promise Me," Reginald de Koven.
Song, "O Promise Me," Reginald de Koven.
"God Save the King," Club Accompanist.
Mrs. A. J. Gibson.

MRS. MARY BOWKER

DIES IN SOUTH

Well Known Local Lady Passes Away in Los Angeles—Was Daughter of Hudson Bay Company's Factor

Friends of Mrs. Mary Bowker will learn with regret that a cable was received by her son, Mr. J. S. Bowker yesterday morning announcing her death at Los Angeles after a brief attack of pneumonia. Mr. and Mrs. J. S. Bowker are on their way to Los Angeles where they hope to arrive tonight.

The late Mrs. Bowker was one of the oldest residents of the island, having been born here some seventy years ago. She was the eldest daughter of the late Mr. John Tod, a native of Scotland, who entered the Hudson Bay company's service in 1812, and came out to Port George, B. C., in 1822. On his retirement in 1851 he settled down near the Willows where he owned an extensive homestead. Mrs. Bowker was named after the subject of the memoir. He was created a member of the Council of government of the Vancouver Island colony and afterwards of the Legislative Council. The late Mrs. Bowker married Mr. John Bowker of Victoria and has resided in what is now the Oak Bay district practically all her life.

WOMEN'S INSTITUTE

AT ROYAL OAK MEETS

Successful Year's Work Reflected in Reports at Annual Gathering—Plans Future

The Royal Oak Women's Institute, which has spent the year, held its first annual meeting on Tuesday last. Although the weather was unusually stormy, the meeting was well attended. In her opening address, the president, Mrs. Richards, congratulated the members on the successful work done during the past year and urged them to greater efforts in that upon which they are entering. The late hour was due to the fact that the rural district depended largely upon women and was deserving of all their attention and assistance. Mrs. Richards thanked the directors for their able assistance during their term of office and especially for their high interest and instructive papers. Mrs. Carmichael, secretary-treasurer, read a report in which she reported that four supplementary meetings were held with an average attendance of 19, at which very interesting papers were read by the members.

A series of high class concerts was also arranged and a Christmas tree given to the Royal Oak and Prospect Lake school children, the pupils in their turn giving a very creditable concert and performance. At the regular fall meeting which was held at the Bismarck.

Meet me at the Bismarck.

held on October 20th and 21st, the attendance averaged 49. The lecturer and demonstrator, Miss Doris Livingston, gave a very able address and a highly interesting course in Domestic Science. A prize was offered for the best menu for farm dinners for the seven days of the week. The competition, the results of which have not yet been received, was taken part in by twelve members. On December 31st, the membership stood at 104.

AT THE CITY HOTELS

At the Bismarck—Miss Ellison, Vancouver; Mrs. Keene, Cowichan; Mr. Johnstone, Vancouver; J. Critchley, Sidney.

At the Dominion—F. Chatters, Langford; G. M. Brown, Vernon; H. Collinson, city; E. Wheel, Cowichan; W. Weir, New York; L. Schulz and wife, Vancouver; Miss H. Hanna, Port Alberni; W. Hogg, Vancouver; W. Ross, Winnipeg; F. Mottenthead, Calgary; Miss Wells, Vancouver; A. M. Gamson, Edmonton; H. Moffat, Quesnel; J. Melville, Prince Rupert; E. Pringle, Edmonton; W. Anderson, Vancouver; F. Wilson, Vancouver; C. Gravas, Vancouver; H. Page, city; P. Welsh, Antigonish; E. Palmer, city; J. Mair, Vancouver; Mrs. Mair, Vancouver; A. Mullin, Vancouver; L. Robb, Vancouver; J. E. Bond, Portland; J. Knox and wife, Duncan; A. Ravenhill, Shawnigan Lake.

OBITUARY NOTICES

Horton—The funeral of the late R. J. Horton took place yesterday afternoon from the residence of his son-in-law, Mr. L. H. Hardie, 2190 Oak Bay avenue. Rev. Archibald, Scriver, officiated. There was a large attendance, and many beautiful floral tributes covered the coffin. The pallbearers were: Messrs. David Dole, A. A. Montrose, W. F. Barrett, E. E. Billingshurst, G. H. Morphy and A. M. Gregg.

McGowan—The funeral of the late Edward McGowan took place yesterday morning from Hanna & Thomson's parlors to St. Andrew's cathedral, where Requiem mass was held at 8 o'clock by Rev. Father Letourneau. The deceased was employed by E. G. Lang & Co., and both Mr. Lang and a number of his fellow workers, by whom he was much respected, attended the obsequies. The company was also represented by a beautiful floral tribute in the form of a large broken wheel of white roses and carnations. The pallbearers were Messrs. J. J. McKenna, P. E. Nyland, S. W. Dugan and H. Nablock. The funeral was conducted under the auspices of the Catholic Order of Hibernians and the Ancient Order of Foresters, of which the deceased was a member.

Hobson—The remains of the late Mr. John B. Hobson, who died on Monday last, will be shipped this morning to San Francisco, being taken by the overland route to be interred in the family plot alongside the graves of his parents. The deceased was one of the oldest members of the Shriners on the coast, and the Glize lodge has sent a large floral tribute. The members of this lodge will be present at the Seattle boat today as well as many other of the old-time friends of the late Mr. Hobson, who have known him in the days when he was prominent in the mining life of the province, and when he centered all his hopes in the riches of Cariboo. Mrs. Hobson and her son will accompany the remains to their last resting place.

Hobson—The remains of the late John Hobson will be shipped this afternoon to San Francisco for interment by Messrs. Hanna & Thomson, word having been received from the brother of the deceased who resides in that city to that effect. The body will be accompanied by the wife of the deceased and his son, Mr. Robert Hobson.

Myers—The funeral of the late William Myers took place yesterday afternoon at 2 o'clock from the Victoria Undertaking parlors, Rev. Gilbert Cook officiating.

Births, Marriages, Deaths

MARRIED

MALIN-POAS—At St. Mary's church, Oak Bay, by the Rev. Rev. A. J. Doull, Dean of Columbia, on Saturday, January 6, 1912, Donald Moore Malin of Victoria, B. C. to Adelaide Louise Poas of Port Alberni.

DIED

WILLIAMS—William Frederick Williams at his parents' residence, 911 Market Street; aged 38 years; native of Farnham, Surrey, England. Funeral will take place from his parents' residence, St. Mary's church, on Sunday afternoon at 2:30 p. m. and later at 3 p. m. from St. John's church. Members of the Court Northern Light, A. O. F. will attend. **FULLAM**—On the 11th inst. at St. Joseph's Hospital, the result of an accident, Mable Ellen Fullam, beloved wife of John Martin Fullam, Jr., aged 33 years. Born in Woodwich, Essex, England. Due notice of funeral will be given. **COULLEARD**—Miss Louise M. Couleard died 10:20 p. m. Tuesday, January 9, 1912, at her home, Hiale, P. Q. Funeral Saturday, January 13, 1912.

CARD OF THANKS.

Mrs. A. A. Aronson and family wish to thank their friends for the many kind sympathies extended to them in their recent bereavement.

Funeral Notice

Ancient Order Foresters

Members of Court Northern Light A. O. F., are requested to meet at the A. O. F. Hall, on Saturday the 19th, at 1:30 p. m., for the purpose of attending the funeral of our late brother, F. W. Williams.

Members of sister courts are invited to attend. W. F. FULLERTON, Secretary.

"It is a pleasure to tell you that Chamberlain's Cough Remedy was the best cough medicine I have ever used. Mrs. Mrs. Hugh Campbell, of Vancouver, B. C. 'I have used it with all my children and the results have been most satisfactory.' For sale by all druggists."

ADVERTISE IN THE DAILY COLONIST

BOARD OF TRADE DISCUSSES HARBOR

Report of Special Committee in Consultation with Mr. L. Coste, Government Engineer, Adopted

Harbor improvements for the port of Victoria was the principal topic at the quarterly meeting of the Board of trade yesterday afternoon. The report of the special committee, the members of which had been in consultation with Mr. L. Coste, the government engineer, was submitted and adopted. Several of the members speaking in glowing terms of the prospects which loomed up as a result of that official's visit here. The grant of \$500,000 by the federal parliament to buy the work of improvement started at once was commented upon, and Mr. G. H. Barnard was complimented upon the success which had attended his efforts in advocating the claims of the city before the Dominion cabinet. The report of the committee followed:

"Your committee on harbor development beg to report having met Mr. Louis Coste, M. E. C. E., on the 18th ultimo. Mr. Coste stated that he had been appointed by the Dominion government to prepare plans and estimate of cost for improvements in the inner and outer harbors and also to lay before the Dominion government his recommendations for providing increased shipping facilities in the vicinity of the outer wharves. Your committee opened the proceedings by furnishing information indicating the growth of the business of the port during recent years. The railway situation on Vancouver Island was also dealt with; in fact, every phase of the subject likely to be of interest to Mr. Coste was discussed, your committee having called to its assistance some members of the board whom they considered specially qualified to present the case from a navigation standpoint. At the conclusion of these addresses Mr. Coste, in reply, stated that he could form an opinion of the developments necessary at the outer harbor by personal observation, but he was anxious to obtain from your committee detailed information in respect to the inner and outer harbors, particularly in demarkating lines beyond which obstructions to navigation should be prohibited. Arrangements were made for furnishing that information and Mr. Coste was again informed that your committee attached special importance to increased accommodation for foreign shipping adequate to take care of future developments which would include a greater depth of water alongside the wharves and railway facilities to admit the handling of freights into and out of cars at the ships' sides. Mr. Coste, in reply, stated that he had made a plan for a breakwater at the outer harbor and when he had elaborated the scheme he would discuss it with your committee.

Another interview "Your committee had another interview with Mr. Coste four days later and on that occasion laid on the table the plan of a breakwater from Holland Point to Brothel's Ledge, the proposed project which had been mentioned by this Board of Trade when discussing harbor development. The plan submitted was prepared by Messrs. King, Evans & Pickard, marine engineers, and was presented to this Board of Trade only as a suggestion and at his request a copy was handed to Mr. Coste. In discussing this plan (which was accompanied with particulars of probable cost) your committee inferred that when completed the harbor which would be would excel Victoria. Mr. Coste informed your committee that he intended to recommend to the Dominion government a progressive scheme of harbor development, the first stage of which would be a breakwater in the vicinity of Ogden Point. This breakwater would be so constructed that when it is found that more room is necessary a portion of the concrete blocks can be used in carrying out the larger scheme and that the balance of the breakwater would serve as a wharf. The question of railway connection with these docks was discussed with Mr. Coste and a practical solution was found in a bascule bridge connecting the Indian Reserve with the foot of Montreal street. Your committee asked Mr. Coste to include the bridge in his plan.

"Your committee were greatly pleased with the result of their interviews with Mr. Coste and they wish to call attention to the prompt manner in which the Dominion government appointed him. At the same time the Board's heartiest thanks and congratulations are due Mr. G. H. Barnard, M.P., for there can be no doubt that the progress made is largely due to his influence and presence at Ottawa. Your committee fully anticipate that Mr. Coste's report will be sufficiently advanced to warrant the Dominion government to including in the next financial estimates substantial sums for more rapid progress in the improvement of the inner and outer harbors and also for commencing construction of the breakwater at Ogden Point. All of which is respectfully submitted.

Begin Work This Year Mr. F. A. Pauline moved the adoption of the report, and in doing so he referred to the grant of \$500,000 made by the Dominion government. He had no doubt that the granting of that money meant that the work of improving the harbor would be commenced this year, and carried out to a completion once the plans of Mr. Coste had been finalized. Through the execution of the work would come great benefits, not only to the city, but to the whole of Vancouver Island. He wished to thank Captain Logan, Lloyd's agent, and Captain Troup, of the C. P. R., for the great assistance they had rendered the committee.

Second Traffic Port At the present time, in regard to ocean traffic, Victoria ranked second in the Dominion, there being frequently five ocean going vessels berthing at the outer wharf on the same day. Under the circumstances it is up to the citizens to fit the port for the traffic that is coming to it, and the hope of ever being a great port.

Mr. G. H. Munn wanted to know on what section of the work the \$500,000 was to be expended, but Mr. Pauline explained that it was not possible to state definitely at the present time. Mr. A. C. Flumerfelt, in a few remarks, expressed the opinion that he had always considered that whatever the federal government did to render the port of Victoria more commercially fit for the trade of the future would be money well spent. Referring to Mr. Lugrin's idea of having the city directly connected with the mainland by rail he said that the construction of that would be a great stride in the right direction.

GERMAN ELECTIONS

Members of Reichstag to Be Chosen by Voters Throughout Empire Today—Party Prospects

BERLIN, Jan. 12.—A general election will be held throughout the German Empire tomorrow to choose members of the Reichstag. Hardly has an election excited more interest since the founding of modern Germany and rarely has greater importance attached to the result.

The widespread dissatisfaction over the policy of the government in the Moroccan negotiations, a dissatisfaction which left it apparently without a single friend in the Reichstag, and the greater interest in the necessity of life which bears most heavily upon the vast numbers of well-to-do persons of small incomes, have created a situation in which the most acute political prophesies find themselves a loss to predict the probable result of the polls.

It seems to be conceded that the parties of the Left—the Liberal group and the Socialists—will make gains, but their probable extent is uncertain.

The Reichstag just dissolved was elected in January, 1907, and sat for the five years' term provided in the constitution. It was composed of the following elements, as follows: Right (Conservative, Free Conservatives, Agrarian Associations), 112; Centre (Catholic, Polish), 129; Left (National Liberals), 55; Radicals, 51; Social Democrats (Socialists), 42; Scattering (particularistic parties), 6.

CANADIAN LLOYDS

Movement in Montreal to Establish Marine Insurance Company, with Government Aid

MONTREAL, Jan. 12.—A move is already being made towards a Canadian marine insurance company. In agreement with the promise of the government aid made by Hon. Mr. Pelletier at the Builders' Exchange banquet, the government guaranteeing it up to a million dollars. At the outset the company would charge the same rates as fixed by Lloyd's, and at the end of the year, after paying 4 per cent. of the government loan and 10 per cent. sinking fund to give back to subscribers what remained. The management would consist of three men appointed by the government, one an expert underwriter and one a shipping man. At the end of five years the experimental stage would be passed and the rates could be regulated.

ALGERINE COMING

Arrives at San Francisco on Way North From Central America—Crew to Be Paid Off

SAN FRANCISCO, Jan. 12.—When tally chattering Central American parties perched on her yards, guns and relings, the British sloop of war Algerine arrived today from Acapulco, Mexico, en route to Victoria, B. C., where the crew will be discharged and shipped to England, and another crew has relieved the Algerine on her Central American station.

FIRE IN SYDNEY, N. S.

Explosion of Film Causes Destruction of Theatre—Hotel in North Sydney Burned

SYDNEY, N. S., Jan. 12.—The Unique Theatre was destroyed here by fire last night and with great difficulty the Sydney hotel was saved. Only a few people were in the theatre at the time, and all left the building safely. The fire was caused by the explosion of a film. In five minutes the building was all in flames, and fifteen minutes afterwards the theatre was in ruins.

The Belmont Hotel in North Sydney was partially destroyed by fire last night. The building was gutted, and the loss will be heavy. A defective chimney caused the fire, which for a time threatened the whole town.

Allan Linn's Plans

MONTREAL, Jan. 12.—In connection with the news from London that the Allan company had decided to have their Canadian steamers call at ports in the English channel, as a means of branching out, Sir Montague Allan told press representatives that the plans were still indefinite. Southampton had been suggested as the new port, but it had not been yet decided upon.

Yael the Eagle's Masque Ball will be held as usual on February 14, Agricultural Hall—Car service all night.

VICTORIA TAKES ANOTHER GAME

Local Hockey Team in Fast Exhibition Before Big Crowd Defeats Vancouver Men Again by 10 to 7

League Standing	Goals
Victoria	10
Vancouver	1
New Westminster	1

In the fourth Pacific Coast hockey league game, and the second one in this city, Victoria defeated Vancouver by the score of 10 to 7, at the arena last night. The attendance estimated at 2,500 was about 600 in advance of the first game here, which indicates the growing interest of Victorians in the great winter game.

The game while rough in spots, was on the whole a clean exhibition of hockey. The total penalty time was only 19 minutes, and of this Victoria players were responsible for 14 minutes. The ice was a trifle sticky, and although there was some clever combination work on both sides, the condition of the ice prevented faster play and better combination. From the commencement of the game until within five minutes of full time, the locals played like veterans, and had their opponents guessing at every turn. During the last few minutes of play when the home team was leading by 7 goals, they slackened their pace, and then it was that Vancouver showed some brilliant work, coming back strong with good combination plays and clever rushes, while the Capitals played on the defensive. There were four goals scored by Vancouver within the last nine minutes of play, while Victoria was unable to make a single gain during this period, and for a while it looked as though the game would end in a whirlwind finish. The big lead, however, which the home team obtained in the earlier part of the game was too much to overcome, and although the visitors made a wonderful spurt, and pressed hard, they were unable to overtake their speedy opponents.

While the visitors played a good game all through, they were not capable of handling the Victoria team every player of which showed rare form, both on skates and with the stick. It was a decidedly different game to that which opened the season here against New Westminster.

Practices Beneficial
The daily practices which the home team has had since that time, enabled them to play 100 per cent better last night. There was not the lack of combination, nor the open space for the Vancouver forwards to pepper Lindsay unassisted as was the case in the first game. Lester Patrick and Small were invaluable in their position, both on skates and with the stick. These took the puck for an individual rush, or went down on the forwards, as they did more than once, Poulin or Rowe was always in readiness to fill the vacancy. The combination work of the home team was at times brilliant, and their checking was a feature. The Vancouver defence worked well and did some clever checking, but they did not seem able to get the puck long enough to get within close range of the Victoria net, and when they shot on goal the shots were frequently wide.

During the first period and for a part of the second, Vancouver made a costly mistake in working to a great extent in the same manner as Victoria did against Westminster. When Frank Patrick or Griffiths got hold of the rubber and started down the ice with the forwards, his position was seldom filled with the result that before they could get back to their place on the defence the local forwards would be back with the puck, and only two men to bother them. This mistake proved fatal on more than one occasion, and when it was remedied in the third period, the Victoria forwards had not such an easy time in finding the net.

Lindsay, in goal, played in his usual good form, and turned aside many hard and accurate shots. Lester Patrick and Small on the defence, worked like the best of the team, stopping shots from the attacks of the Vancouver forwards. Small showed rare form during the entire game, and did some checking that brought him rounds of applause from the excited, though delighted throng of spectators. Lester Patrick played his usual excellent game, and when he got the rubber and started down the ice, there was always keen excitement for he is a class by himself as a stick-handler, and can get through his opponents with wonderful ease. The local forwards worked well together, and their combination play, which they handled cleverly, was responsible for considerable of the scoring.

Parr's Defence Fair
Parr defended the net for Vancouver fairly well, but he was not able to connect with the well-placed and wicked shots of the boys in the stripes. Frank Patrick and St. Griffiths held down the defence in good form, and the forwards worked well, especially towards the latter part of the game. For Vancouver, "Newy" Lalonde possibly played the best game. Newy was all over. When the defence was in need he was always

Today's Sport
Rugby—J. B. A. v. Survivors at 2 o'clock, Oak Bay park. Oak Bay v. Law Students at 3 o'clock, Oak Bay park.
Soccer—First Division—Garrison v. Foresters at Work Point grounds; referee not decided. North Ward v. J. B. A. at North Ward park; referee, W. Miller. Second Division—Foresters v. Victoria West at Beacon Hill park; referee, W. Wilson.
Hunt Club—Weekly run starts from Jewish cemetery at 2:30 o'clock.

there, and on the forward line his play was valuable.

The game started with a rush, and from the face-off of the puck, Phillips got next to the rubber, and carrying it down the ice passed to Lalonde, who scored the first goal of the game within one minute after starting. For the next five minutes the rubber was shot back and forth, and several times was dangerously near both goals. Small started the real work when he got the puck and after making a rush passed to Dunderdale, who scored the second in the game and the first for Victoria. After the face-off Poulin got the rubber, but overskated. He started making a set for the second time, and the ice and passed to Harris but when Referee Jimmy Gardner called an offside, Newy gave some back talk, for which he was allowed to rest for two minutes. A minute later "Skinner" Johnson hit the Dunderdale net for the second time, when Bobby Rowe got the puck, passed to Smith, who in turn passed to Dunderdale. Griffiths made it 2 for Vancouver, after getting the puck when Poulin overskated. Frank Patrick got the rubber from the face-off, but was cleverly checked by Dunderdale, who went through the Vancouver defence, and scored within one and a half minutes. Four minutes later Lester Patrick came down the ice with a rush, passed the defence unassisted, and with a clever shot added one more goal. This ended the first period, with the score standing 4 to 2 in favor of Victoria.

A Heat Play
One of the nearest plays of the second period, when Bobby Rowe got the rubber from the face-off, and passing it to a brilliant individual rush, past the Vancouver forwards and through the defence, scored the first goal of the second period, and the fifth for Victoria. Smith scored three minutes later after a brilliant play, with Lester Patrick and Rowe. The single goal for Vancouver in this period was scored by Phillips in one minute and a half.

The concluding period was full of excitement, and during the 20 minutes each team netted four goals. Four goals for Victoria, scored in order by Rowe, Poulin, Small and Poulin. This onslaught seemed to inspire the visitors and for the next five minutes they made things warm around the home goal. When it was all over they had scored four times. Lalonde, Phillips (2), and Patrick being responsible. It was an interesting conclusion to an interesting game, and the hundreds of rosters who left the arena could not help but realize that the hockey team second to none was representing this city in the Coast league race.

The next game in the league will be played on Tuesday night next at Vancouver between New Westminster and Victoria.

The Line-ups
Victoria—Goal, Parr; point, E. Patrick; cover point, Griffiths; forwards, Lalonde, Nichol, Harris and Phillips.
Vancouver—Goal, Lindsay; point, L. Patrick; cover point, Small; forwards, Dunderdale, Smith, Rowe and Poulin.
Officials—Referee, Jimmy Gardner; judge of play, Harry Hyland; timers, J. W. Bryan, Vancouver; J. A. Taylor, Victoria; penalty timekeeper, W. H. Wilkerson, Victoria; goal umpires, Dr. Sinclair and W. M. Casey, Victoria.

Summary
Goals—1st Period: Lalonde, 1 min.; Dunderdale, 3 min.; Griffiths 3 min.; Dunderdale 1 min.; Lester Patrick 4 min. Victoria 4. Vancouver 2.
2nd Period: Rowe 7 min. Smith 3 min. Phillips 11-2 min. Victoria 6. Vancouver 4.
3rd Period: Rowe 2-12 min. Poulin 4 min. Small 0 min. Poulin 2 min. Lalonde 2-12 min. Phillips 1 min. Frank Patrick 3 min. Phillips 3 min. Final score, Victoria 10, Vancouver 7.

Penalties—Lalonde, Vancouver, 3 min.; Poulin, Victoria, 2 min.; Poulin, 2 min.; Smith, Victoria, 3 min.; Dunderdale, 2 min.; Dunderdale 5 min.; Nichol, 2 min.

WESTS GOING RIGHT AFTER MORLEY CUP

Hold Organization Meeting on Wednesday Night When Large Number of Members Were Present
On Wednesday night last the Victoria West football boys held one of their famous "soccer reunions," when some business and lots of good things were served and many songs were included in an excellent programme.

Although the Wests have lost the city league championship this year for the first time during the past four seasons, yet they are not at all discouraged, stating that nothing more than unfavorable circumstances were the cause of their downfall, and with one accord they now proclaim that they are going right out to keep the Morley cup, which they now hold. To judge by the circumstances evinced on Wednesday night there is no doubt but what the "green shirts" will take a lot of beating in the island league. The first and second division teams have amalgamated and together with some new material in sight it looks as though the Wests will be very strong indeed.

Stanley O'Neil, the old leader of the West enders, who was away the greater

part of the city league season, was elected captain of the new team and the West boys are confident that he will pilot them to victory as of yore.
Jack Youson, the hard working manager of the old second team was promoted to the position of manager of the first, and there is no doubt that he will be a great success. These two men, together with Jamie Pellicrew, who was elected vice-captain, will be executive of the team.

It was an optimistic and very good natured gathering that dispersed about midnight.
Boys Will Practice
The James Bay hockey team will hold a practice at the arena between 2 and 3 o'clock this afternoon and the following members are requested to attend: Watson, Wickson, Brown, McCutcheon, Mason, Doodman, Peters, Spencer, Nevitt, Laidlaw, Bloomfield, Stockpolski, Harris, Gallier, Corbett, Fraser. The team to play the Wards in the opening game of the season on Monday night will be selected from the above. Harry Skuce, secretary of the Bay club, expects his team to make a good showing on the opening night.

EDUCATIONAL DEFECTS
Mr. Moseley, Head of English Education Commission, Speaks on Subject at Stanford University

STANFORD UNIVERSITY, Cal., Jan. 12.—Pompous homilies of education which underlay school-teachers, are striking at the life of the nation, according to Alfred Moseley, head of the English educational commission, who spoke his mind on the subject here today. That public school teachers generally are checked out of what belongs to them by the men who run the schools there is no doubt, according to the distinguished Englishman. "America owes her position among the nations to her system of free education," Mr. Moseley declared. "American teachers, however, are grossly underpaid, and unless salaries are raised, our system will fall short. If America fails, the world will go back to autocracy and the sword."

Americans, Mr. Moseley said, can teach progressiveness to the English and can well learn from them honesty in business and a desire for equity among lawyers. "England is criticised for her aristocracy," he said, "yet you never hear of American graft and corruption among English noblemen. Their family names cannot countenance graft." The idea of too many American lawyers is to lead people in the law, through which to defraud justice. "Law schools must teach higher ideals. The lawyer should be a peace-maker and not a grafting trouble maker." Mr. Moseley does not think much of American newspapers. "The typical American newspaper dealing in the sensational, in crime and society rot, is a disgrace to your country," he said. "The typical English newspaper gives valuable information."

PRIMITIVE SAVAGERY

Italian Rancher Near Santa Barbara Found Guilty of Murdering His New-born Child

SANTA BARBARA, Jan. 12.—John Reich, an Italian rancher, charged with the murder of his new-born babe, was found guilty of murder in the first degree by a jury today, with a recommendation of a life imprisonment. He will be sentenced on Tuesday.

Reich was composed for a moment after the jury had returned its verdict, and then the import of their finding seemed suddenly to dawn upon him. He sprang to his feet and began to wildly swing his arms and cry out. He was surrounded and placed in a cell.

The crime for which Reich was convicted, was committed November 2. Because, as he said, the cost of living was too high, and he could not send money to his parents in Italy if compelled to support a family, he took his new-born baby into the rear of his house, dug a hole and placed it in alive. He then covered it up and with his spade struck the infant a blow on the top of its head, crushing its skull.

Mrs. Reich, accused of having aided her husband in the crime, was indicted for murder, it being alleged that she gave her consent to the killing of her infant. The time for her trial has not yet been fixed.

STEAMERS MEET IN PUGET SOUND

Strathbyn and Virginian in Collision Near Three Tree Point—Both Suffer Injury

TACOMA, Jan. 12.—The British steamer Strathbyn and the American freighter Virginian met in a collision near Three Tree point, half way between Tacoma and Seattle, on Puget Sound, at a few minutes past eight o'clock today, according to word brought to this city at 9 o'clock by the sound machine. The passengers and crew of both vessels were uninjured. The Virginian was badly injured, and the Strathbyn was badly injured. The Virginian was under indictment for murder, it being alleged that she gave her consent to the killing of her infant. The time for her trial has not yet been fixed.

Being for Damages

TORONTO, Jan. 12.—Captain A. E. C. Deacon, of Bedford, England, has entered an action against the Toronto Street Railway company to recover \$10,000 damages for the death of his wife. She was killed in an accident on King street east on Christmas Eve. He has also entered an action for \$5000 for injuries sustained by himself.

Summerlanders are asking for special investigation before whitebait are planted in Okanagan lake, fearing that if dangerous, the whitebait will destroy the salmon trout.

AFFAIRS BEFORE BOARD OF TRADE

Registry Office Inadequacy Being Considered by Provincial Government—Grant for Post Office Extension

It was reported at the quarterly meeting of the board of trade yesterday afternoon that a deputation representative of the board, report real estate exchange and the law society, waited upon the provincial government with a petition urging the inadequacy of the present quarters, and that the premier had promised an early reply. In regard to the post office, the condition of which had been placed before the attention of the Dominion government by Mr. G. H. Barnard an appropriation of \$10,000 had been made for temporary extensions. It was also reported to the meeting that the site for the experimental farm had been purchased.

The demand for a double postal service between Victoria and Nanaimo was made possible through the Dominion government deciding to grant the railroad company a small subsidy to pay the salary of an extra mail clerk. The mail clerk was the only difficulty in the way, and the government had been pleased to pay the official the company has no objection to doubling the service.

In regard to telegram rates it was reported that the matter was now being heard by the commissioners. Nothing further had been done in regard to the installation of a day lettergram machine. It was reported, however, that a representative of the Western Union, which operates such a service in the United States, had tried to start a service in Canada but had to desist on account of the strong opposition upon the "gas and electricity" question was submitted by Mr. J. W. Ambrey. He stated that the full report on the subject would not be ready for a few weeks on account of the difficulty of obtaining accurate data.

It was also reported that the express rates to Vancouver had been reduced to their former figure as a result of the board's interference.

EXTRAORDINARY DEVELOPMENT
(Continued from page one)

available, and will be in circulation as the year progresses. This should be a great stimulus to business. He promised to make it his special duty to ascertain the best method of meeting the situation. As a member of the committee he had gone into the matter, and it was his opinion that there was no occasion for the projected increase. "We may be wrong," he said, "but if we are wrong we are going to find out where we are wrong." He asked the board to appoint a small committee to co-operate with the Real Estate Exchange and the City Council in meeting the new situation created by the proposed increase.

Mr. E. C. Bagshawe briefly endorsed what had been said by Mr. Cuthbert. Mr. McKicking: Will Mr. Cuthbert tell us where he got his information to the effect that the company intended to increase their rates? Everyone in the room inferred from the question of the manager that there was no such expressed intention and for a moment a smile flitted over the faces of the members.

Notice Was Served

Mr. Cuthbert: Well, I don't know, Mr. McKicking, whether our information is correct or not. All I know is that a notification was served upon the exchange to the effect that the rates after a certain date would be higher than before. As a result of a discussion on the question it was referred to the committee of which I happen to be a member.

Mr. J. J. Shillcross: Well, then will you tell us Mr. McKicking if the rates are going to be raised. The whole question is one of a public utility which in this case is a direct monopoly and a very important one.
Mr. H. G. Wilson, (chairman): If the company does not intend raising the rates it will save us the trouble of appointing a committee.

Mr. McKicking: I don't know how far I can go in that direction. What I can say is that I have no official information of any intention on the part of the company to raise the rates in Victoria. I think it is an error, Vancouver being mistaken for Victoria.

Chairman: Have they given any notification in Vancouver? Mr. McKicking: Yes, but so far as Victoria is concerned I really don't know anything about it.

Mr. J. W. Ambrey: There is no specified time for issuing any notifications?

Mr. McKicking: I do not know that it is necessary to make notification, but I presume that it would be done. Merchants in the city have raised the price

Leaky Boats Repaired by Newton & Co., 1224 Wharf street, makers of "Nag" Composition.

LOOK US UP FOR:
POTATOES, per 100 lbs. \$1.75
ONIONS, per 100 lbs. \$1.75
SUGAR, per 100 lbs. \$1.75
Telephone 613. SYLVESTER FEED CO. 400 Burrard

of their goods over and over again since I came here and they never sent me any notification of the change. (Laughter.)

The question of how the proposed increase reached the real estate exchange was then raised by the chairman and Mr. C. T. Cross explained that the exchange had been served with a bill six months in advance which worked out at a \$5 increase on the former rate. It was then ascertained from Mr. McKicking the extra cost in this particular case was for installation, and one or two other technical requisites, and had no connection with an increase in the rate for the use of the telephone.

After the matter was brought to this point it was decided to write and ask the company if there was any intention to increase the rate within the next twelve months; and the committee was appointed in accordance with the recommendation of Mr. Cuthbert as previously stated, on the motion of Mr. C. H. Lugin.

VANCOUVER ELECTION

Names of Aldermen Chosen by Voters on Thursday—New City Hall Is Favored

VANCOUVER, Jan. 12.—The majority for Mr. James Pindal in the mayoralty contest was 1314, the figures being: Pindal, 872; Taylor, 442.
The aldermen were elected as follows: Ward one—James Ramsey and Walter Hepburn.
Ward two—S. J. Crowe and J. D. McNeill.
Ward three—C. W. Enright and Thomas Kirpatrick.
Ward four—George Kline and George McSpadden.
Ward five—George Williamson and T. S. Baxter.
Ward six—James White and W. S. Cameron.
Ward seven—M. McBeath and Frank E. Woodside.
Ward eight—Frank Trimble and Sidney Miller.
License commissioners—Dr. F. P. Patterson and R. S. Pyke.
School trustees—Mrs. P. McNaughton, William Clubb, W. E. Flumerfelt and G. J. Dyke.

Park commissioners—Jonathan Rogers, A. E. Lees, E. S. Knowlton, William R. Owen and George Eldon.
The ratepayers of the city declared themselves yesterday in favor of a new city hall, to be erected on the site of the old hospital at the corner of Cambie and Pender streets, and against the operation of a municipally-owned street car service in Stanley park by large majorities.

Construction of a temporary city hall on the present city hall site was defeated by the small majority of 56 votes. Four thousand, seven hundred and forty-three votes were cast in favor of the construction of a new city hall, the 1883 against. The vote for the temporary civic building was 2467 for and 2463 against. The voting on the three proposals stood:

For Agst.
Stanley park tramline 2524 4617
New city hall 4743 2463
Temporary city hall 2407 2463

TODAY'S FOOTBALL
Rugby and Rugby of the Best Variety Offers Itself to Enthusiasts in This City Today

Today's sport card offers both soccer and rugby, which for city senior exhibitions cannot be beaten in many cities. The soccer is important in that the city championship will be decided in all probability today, while the rugby fixtures provide the second round of the newly formed league, which is creating more interest every day.

The Garrison will meet the Foresters, and in the case that the former win the O'Neil cup, emblematic of the championship goes to the soldiers, regardless of any other results. The Foresters, however, will put as strong a team as it is possible to field from the club against the soldiers, but at that it will take some fast going to get the best of the Tommies.

The James Bay and Survivors Rugby teams will provide the opener at Oak Bay park at 2 o'clock. At 3 o'clock the Oak Bay team makes its initial appearance against the uncashed law students, who hope to keep up their undefeated record. Oak Bay, however, looks as good a team as they will be forced to meet.

The teams follow: Oak Bay—Fullback, Ed. Steele; three-quarters, P. Nason, Stevens, Dickson and Tuohy; halves, Clarke and O. Nason; forwards, Spencer, Arbuckle, Miller, F. Sweeney, Thomas, McCallum, Brynjolfsson, J. Takers, Reserves, R. McInnes and Leonard.

J. B. A.—Back Johnson; three-quarters, McDonald, Vincent, Scott, and L. Sweeney; halves, Newcombe and Norman; forwards, Heinkeky, Williams, Day, Newmarsh, Grege, Brown, Houston and Baylis. Reserves, Flint and Hayland.

Survivors—Back, Williams; three-quarters, R. E. Meredith, J. Roiston, H. Griffiths and Shevan; halves, A. Gillespie and S. Rich; forwards, R. Gillespie, S. Gillespie, R. M. Benson, J. M. Simpson, C. E. Straker, A. S. Jones, J. Benson, A. L. Morton.

Law Students—Fullbacks, T. Stewart; three-quarters, Martin, Ogden, Stewart and W. Ross; half-backs, Shires and Morton; forwards, Milligan, Morris, McNeill, H. Ross, Ambrey, White, Yeonans, Beckton; reserves, Pilkington, Tait and Wootton. Billy Newcombe will referee.

Island League Meeting
The meeting of the Morley cup, Island Soccer league, which was to have been held last night, was postponed until next Tuesday evening.

Test the Harbor Masque Ball will be held as usual on February 11. Agricultural Hall—Car service all night.

Free lectures—Illustrated by a large chart, entitled, "Haven, Earth and Mankind." Commence Sunday 8:30 at 11:00; following nights, 8 o'clock. In hall over Chalmers & Mitchell's, Vancouver, 222, conducted by G. C. Stewart, and others.

Free lectures—Illustrated by a large chart, entitled, "Haven, Earth and Mankind." Commence Sunday 8:30 at 11:00; following nights, 8 o'clock. In hall over Chalmers & Mitchell's, Vancouver, 222, conducted by G. C. Stewart, and others.

To the Electors of the City of Victoria

Ladies and gentlemen, accept my sincere thanks for having returned me to the School Board by acclamation at the late election.

DAVID MCINTOSH.

You the Mayor Masque Ball will be held as usual on February 14, Agricultural Hall—Car service all night.

"CHILDREN AS A NATIONAL ASSET"

Sir John Kirk Gives Illuminating Address on Work of Conserving and Developing the Child, to Canadian Club

"Children as a national asset" was the theme of John Kirk, the noted philanthropist, who yesterday was the guest of the Canadian Club at a luncheon held at the Alexandra Club, and his address proved eminently interesting and instructive. He brought it home to his audience, which was made up of a representative attendance of members of the club, that the state owes another duty to itself beyond encouraging the development of its material resources, and this was the conservation of the child. His story of the wonderful work being done in London and elsewhere in the United Kingdom, as well in various parts of the Empire, in saving the child which would otherwise become a human derelict, was a revelation of what can be accomplished when concerted effort is made.

Mr. Lindley Crease, the president of the club, occupied the chair, and he was

SIR JOHN KIRK

supported right and left by Hon. A. E. McPhillips, K. C., Very Rev. Dean Doull, Mr. A. W. McCurdy and other prominent members. In introducing the distinguished guest of the day, Mr. Crease took occasion to say that he was in every sense of the word a pioneer in the splendid work of laying the foundations of Empire at very centre. He was sure that they would get many ideas which would be helpful in a new country such as this, in steering clear of the rocks on which many cities in the making had come to grief.

Everywhere he had gone he had been struck with the evidence of the rapid manner in which the material resources were being developed. Naturally in new countries this work claimed first attention, but he was also interested in knowing that the interests of the child were also beginning to receive attention.

He felt that while he esteemed it a privilege to be able to come before them and address them on his work, he need make no apology. The little ones could not be ignored if the foundations of a really great country were to be laid properly. Past experience had shown that the child must have every chance at its birth if we are to have the best results. Unless the stream of life be pure they could not expect the child to be able to succeed to carry on the traditions of the British race.

In Australia he had noted, as he had noted here, that there was a good system of free education. In all new countries they should not great attention to parental responsibility. He here related a pretty story of a child who had once said to him that Christmas was "God's birthday." It was undoubtedly true that ever since Bethlehem the condition of the child had been different. The old races all had their problems in the birth of children. Some of them tried the experiment of putting away the children who proved burdensome, but all such nations had faded and passed away. The insistent Romans with their voluptuousness taxed bachelors for shirking the duties which they ought to bear. But it was amazing to realize how long a time it took for the nations to see the value of the child. Lord Shaftesbury was pioneer in the work. Previous to that time it was not unusual sight to see groups of child workers chained together, and whole batches were sent off by the shipload to serve apprenticeships.

Encouraging Progress

But there was much that was encouraging in the progress of the idea of child value. Nothing was clearer than that the nation which neglected the child was sure to go wrong. But present day life did not tend to help the child. It was Lord Shaftesbury, who had made the first organized attempts to do something, who opened the famous Ragged Schools, providing free clothing and free education. So they found themselves after 75 years of active service in this good cause rejoicing in the progress made; but they were very far from a position of perfection.

They must also realize that the work of

all experience was that the basic condition of success for all nations was that while the development of the material resources must not be neglected the conservation of child life must go hand in hand. Man was a unit if saved, but to save a child is to save a multiplicity of units, as one earnest worker had put it.

Did not every child need a mother's care and love? And here the speaker told an amusing little story of a friend of his who declared on one occasion that "an ounce of love is worth a pound of parson." Nothing was so helpless as the human infant at birth. It could do absolutely nothing for itself. In the old country the problem was a terrible one. There they were face to face with the fact that in many instances the mother could not perform her duties. The alms were something awful—decent living under such conditions was simply impossible. It was true that whole slum districts had been uprooted and the inmates removed to an improved environment, but much still remained to be done.

He told of some of the huge accomplishments of himself and his friends. There were 50,000 children being cared for in connection with the schools, and these were being fed as well as educated. At Christmas, as the schools closed for a fortnight, the society had voted no less than one thousand pounds to provide meals. Thirty thousand pairs of boots had been supplied last winter.

Chance For Parents

All this had been done so that the parents might be given a chance to get along and help themselves, which would not be possible otherwise. He thought all would agree that every child brought into the world was entitled to fresh air and decent surroundings. They were like flowers. If they did not receive fresh air and sunlight and care and attention they withered and died. He was happy to be able to say that the society which he represented had been able last year to arrange to transport for a fortnight no less than 100,000 children to Epping Forest and other breathing places outside of London. They used to fill up a train every day in summer also, and send hosts of happy children to Epping Forest so that they might have some idea of what a blade of growing grass looked like.

Sir John told a number of amusing experiences with such children. One little girl had been actually frightened with the look of the sky. "There was too much room," she said, and she wanted to go back home. But he was happy to say she speedily got used to it, and did not want to go back to her old life any more.

Sir John then went on to relate the tremendous progress of the work of lifting the children which had gone on since the year 1870. There was not a single law recognizing the rights of children on the statute books of Great Britain. But there had been a great step forward since that time. Three years ago all the laws relating to child neglect were consolidated under one act, and children's courts had been established, as he was happy to hear had been the case in this country, and children were no longer forced to herd with criminals. Parents were sometimes disposed to cast the responsibilities which should be theirs on the state, and this was to be guarded against, but whatever resulted, the care of the child and its welfare must be the first thought.

Education Greatest Aid

Education was perhaps the greatest aid to success in this work. He told of the splendid achievements of the Ragged Schools, and of his pleasure during his present visit to Victoria in meeting no less than five former pupils who were now domiciled here and doing well. Children in the period of adolescence were to be particularly guarded against contamination. The ages between 14 and 18 were most critical, and in this connection he rejoiced at the progress of the Scout movement. He was sure that an inestimable amount of good was being accomplished by such organizations.

It was highly important that children be given an opportunity to play. They cannot develop as they ought unless they be given this chance, which was one of the most natural things in the world. They were thus prepared for more serious work, just as the kitten chasing a ball was getting educated in the proper pursuit of a mouse. Therefore the society had established many playgrounds in England, and many prominent ladies and gentlemen were giving their time to the proper education of the children.

But after all there must be love. They might attend to the child's every physical need, but if love was absent it would die; and he would go so far as to say that in his opinion religious training must enter into the life of the child if the proper results were to be obtained. He told in this connection of a celebrated African chief, who, on being asked what constituted the might of the British Empire, replied, "the Bible." In his opinion any nation which would keep out the Bible would soon come to trouble.

It might be argued that this elaborate care over the child was very costly. So it was, but if money were not expended in this way it would go for other taxes, which would assuredly follow the neglect of the child. Crime and ignorance invariably went hand in hand. There was no need to begrudge the money spent on the children. He closed with the prophetic reference to the child by Isaiah, "A little child shall lead them."

In extending a vote of thanks to the distinguished speaker the chairman said that he had established a record, having spoken 30 minutes, no more, no less. The subject dealt with had been one which would bear a great deal of thought and scrutiny. It was clear that this country should do whatever it could for the conservation of child life, so as to build up a strong Canadian nation.

Before dismissing Mr. A. C. Flumerfelt suggested that the members should show in a practical way their appreciation of the good work done by Sir John Kirk and this was agreed to most heartily.

Messrs. Cunningham and McLean, two business men well known throughout British Columbia are opening their new Gent's Furnishing Store at 515 Fort Street, this evening.

ISLAND LEAGUE'S ANNUAL MEETING

Mr. C. N. Pinco of Alberni New
President—Secretary Mc-
Gaffey Re-Elected and
Complimented

Mr. J. J. Shallcross, vice-president of the Vancouver Island Development League, pointed out at the annual meeting yesterday that the hope of the future of the island lay in an even distribution of its population over its length and breadth, with no enormous centres with all their attendant evils of congested areas. It is along these lines that the league is working, and the first means to this end is facility of communication by railway, road, trail and boat.

There were present at this meeting: Mr. W. J. Sutton, Victoria; Mr. J. R.

Motion and Mr. Leonard Frank, Alberni; Mr. E. Woodhouse, Port Alberni; Messrs J. Thornhill and J. S. McBean, Campbell River; Messrs H. C. Brewster, J. Cheeseman and U. Ouselet, Clayoquot; Messrs C. E. Griffiths, H. E. Porter and Dr. A. T. Watt, Colwood; Mr. W. F. U. Copenham, Sidney; Mr. W. McCurdy, Nootka; Mr. P. Clarke, Otter Point; Mr. E. A. Baird, Port Renfrew; Mr. J. A. Murray, Sooke.

The following were the resolutions passed for recommendation to the government:

Roads
"The league congratulates the government, and especially the Hon. Thomas Taylor, upon the thorough and business-like manner in which the policy of road construction has been prosecuted and recommends that the government push road building in advance of settlement rather than following it. The following roads are recommended for immediate consideration: Alberni to Clayoquot by way of Ucluelet, via Long Beach; Victoria to Bamfield via Port Renfrew, partly done; Lagoon and motor drive at Colwood along Lagoon Sand Spit; Campbell River district road from junction of E. & N. railway to Oyster River or three miles north of Oyster River; trail from Cumberland to Dove Creek, ten miles; trail

from Nootka to Campbell River; trail on Nootka Island from Badjo Point to Friendly Cove; road from Buttle Lake to Alberni via Great Central and Sprout Lakes to complete circuit with road entering Strathcona Park from Campbell River; Holbert to San Josef; Shushall Euy to Cash Creek."

Railway Extension
"That the railway policy of the government as regards Vancouver Island meets with the entire approval of this league, and this league notes with especial satisfaction that the government proposes to extend the operations of its railway policy to the north end of the island. In this connection it is hoped that the government will not overlook the necessity of forming a connection with the mainland via Butte Inlet or some adjacent suitable point."

Rural Telephones
"This league would urge upon the government the importance of connecting all parts of the island by means of telephones, either government owned or under government control and direction."

Strathcona Park
"This league endorses the action of the government in establishing the reserve for park purposes for all time the area now known as Strathcona Park,

and they would urge that negotiations be entered into with the E. & N. railway so that all the land around Buttle Lake be included in the reserve."

Needs for Roads
The needs for roads in each district were urged by the representatives present, and requests for the appointment of justices of the peace in the Metchochin district, for a wharf at Albert Head were endorsed and referred to the executive. Mr. Griffiths then urged the importance of aid being given the settler by the government in clearing his ground; cheaper powder would be an immense help. The importance of this subject was acknowledged by all present, but, as Mr. Brewster remarked, it opened up a very wide question, namely, the lending by the government of money to men on taking up land to put them fairly on their feet, as was done in New Zealand.

Mr. C. N. Pinco, president of the Alberni branch, was elected president of the league for the current year. Mr. J. J. Shallcross being chosen as secretary vice-president with power to act whenever the president was unable to be in Victoria. Mr. E. McGaffey was elected as general secretary, and a tribute was paid to the immense amount of work performed by him in the past year in the interests of the league.

How Nature Makes New Complexion

From the Family Physician

It is well known that the human skin is constantly undergoing a tearing down and building up process. With advancing years of wasting vitality this tissue-change less; the lifeless, solid surface skin stays on so long that its owner gets a "poor complexion."

Common sense tells us this dead skin cannot be enlivened or beautified by any cosmetic, lotion or powder. The natural thing to do is to remove the offensive skin—remove the bad complexion. It has been found that ordinary mercurized wax completely absorbs the devitalized skin, in minute particles, so gently, gradually as to cause no inconvenience. Mercurized wax, which any druggist can supply, is put on at night like cold cream, only not rubbed in, and washed off in the morning. If you would have a brilliantly beautiful complexion, just use this simple treatment.

C. & W. Grill and Restaurant, basement of Sayward block. Our Merchants a la carte Lunch cannot be equalled. Steaks and chops, from the only Electric Grill in town; unsurpassed for excellence.

**When You Buy
at Starting
Prices in a New
Town You
Want to Get
Your Lots
Located Right
in the Heart
of the Business
Section**

We offer you lots at starting prices right in the heart of what must be the business centre of the future city of

Hazelton

Here are a few of our reasons for believing that Hazelton will develop into a big city:

Hazelton is the centre of a great mining district.

Hazelton has a large agricultural and fruit district surrounding it.

Hazelton is at the head of navigation from the Pacific Ocean.

Hazelton will be the centre of branch railroads to the mining districts.

Hazelton has the only anthracite coal in Canada, equal in extent and quality to that of Pennsylvania.

Hazelton will be the first large point east of Prince Rupert on the Grand Trunk Pacific.

Hazelton has the raw materials for smelters, factories and sawmills at its doors.

Hazelton has already an established trade. The merchants of Old Hazelton will practically all move to the official townsite, ensuring a heavy local demand for lots.

Hazelton has been fully described in the British Columbia bulletin. Send to us for it. Read for yourself and be convinced.

Write, wire or call for full information.

SHE GOT WHAT SHE WANTED

This Woman Had to Insist Strongly, but it Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I was so weak that I could not get to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—he said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it, and I am so glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will."—Mrs. JANETSKI, 2903 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

On the Waterfront

FRENCH LINE
MAY COME HERE
S. B. Fugazi Coming to Seek Information Which Portends Entry of Lines from France Into This Trade

CHARGEURS REUNIS MAY RESUME SERVICE

Expected That Amiral-Liners, Which Formerly Ran Here, Will Run Here via Panama Canal

The nearer approach of the completion of the Panama canal is resulting in the larger European shipping companies looking to the North Pacific coast for the development of new steamship lines. Following the departure of Mr. E. J. M. Nash, special representative of the Royal Mail Steam Packet company, who left Victoria yesterday, Mr. S. B. Fugazi, of the Chargeurs Reunis agency, representing many European lines is coming here to gather data for the companies General Transatlantique and other French lines included in his agency in view of their probable entry into this trade.

With the opening of the Panama canal the French lines will also establish a service to the North Pacific, with possible calls at this port. It is generally believed that the opening of the canal will at least bring the Chargeurs Reunis around-the-world line back to this port. The steamers in the Amiral fleet of the Chargeurs Reunis company formerly operated in a service from Europe, through the Suez canal, and via the Orient to Victoria and Tacoma, thence to Europe via the West Coast. Some of the well-known vessels in the fleet at that time were the Amiral Hamelin, Amiral Bouchon, Amiral Duperre, Amiral Lecomte and Amiral Jauréguiberry.

After a time the steamers were withdrawn from the North Pacific route and proceeded from the Orient to San Francisco, and later this line also was abandoned. The company is now operating between the east coast of South America and Europe and other services from Europe.

It is presumed that with the opening of the canal their South American service will be enlarged to include the West Coast, and a line will also extend north to this port, and across the Pacific to the Orient.

Mr. Fugazi is now visiting Tacoma. Asked regarding his visit, he said: "I am not making any statement at present. It is too early for anything to be given out."

CROWN OF GALICIA WILL LEAVE TODAY

Completes Loading Shipments of Whale Oil for Glasgow—Tender Also Took Large Consignment of Oil
The steamer Crown of Galicia, of the Direct Line, which has been at the outer wharf all week loading whale oil, having taken over 7,500 barrels on board, leaves today for the Sound and San Francisco to complete her cargo for Europe. The steamer of the Blue Funnel line which spent three days here loading whale oil, lumber and other cargo, has also proceeded to the Sound to complete her cargo for Europe. The Blue Funnel steamer will proceed via the Orient and Suez canal and the Crown of Galicia via the Strait of Magellan.

AWARDED SALVAGE

Steamer Masunda Gets \$3750 for Picking Up Disabled Launch in the Indian Ocean

The steamer Masunda has been awarded \$3750 salvage for services rendered to the steamer Langbank in the Indian Ocean from the 25th to 14th of October, 1917. The Langbank, from Calcutta for Bombay, was disabled by breaking two blades of her propeller on some submerged object and was making for Bombay in distress. On the early morning of Oct. 8, however, another storm was felt, and it was found that water was rushing through the stern gland into the after peak tank, which filled in a short time. The tunnel also became flooded. Steps were taken to repack the stern gland, but the influx of water was casual, the tunnel and the after peak tank were then pumped dry, and eventually the water was effectively stopped from entering the vessel. On attempting to restart the engines, however, it was found that the packing became disturbed, and that water again began to enter, whereupon it was decided not to try and make port unaided. On the early morning of Oct. 9 the Masunda hove in sight, and signals were made to her by means of the Morse code, indicating that the Langbank was disabled. On the Masunda coming up, it was arranged that she should take the Langbank in tow for Bombay. After some difficulty a connection was established between the vessels, and ultimately on October 14th, the Langbank was brought safely into Bombay harbor, the distance towed being about 650 miles. Plaintiffs claimed that by the services the Langbank was rescued from a position of great danger and anxiety. She was, they said, quite unable to assist herself, and could never have reached port without being towed. In performing the services, the

Masunda incurred the usual risks incidental to an ocean towage. The defendants admitted the services but pointed out that the weather was fine and the sea smooth throughout. They further said that the Langbank was in no real danger, and only required towage assistance.

The president, who remarked that the services, though amounting to little more than a tow, were well performed, awarded the plaintiffs \$3,750. That sum he apportioned as follows: To the owners of the Masunda £2,750, to the master £275, and to the crew £750.

BOOM IN SHIPPING TRADE NOW ON

Increasing Freight Rates Result in Animation in Shipping Circles Throughout the World

Reports from all the chief European ship-owning centres indicate an increased confidence in the continuance of the high freight rates which have been prevailing for the last few months all over the world. The shipping movement has stimulated an animation in the formation of the ship "owneries" in England and elsewhere on the Continent which has been dormant for several years.

Years that it was thought could never do another day's work at a profit are busily employed in making money. The more economical ships are coming into the market, and they seem to be very favorable terms, but they may prove to have done unwisely. So confidently in the future regarded that a lull in the giving out of shipbuilding contracts has come to an end, and a large number of new orders have been placed. Any fear of a glut of tonnage does not seem within measurable distance.

As to the boom in coal freights, an example may be given of what is happening. A steamer of 2000 tons, built as far back as 1875, was bought in March last for \$3000. In nine months she has earned \$2500, and her market value today is put between \$5000 and \$6000. Whether the advance is values and profits has been fully reflected in the price of shipping shares is an open question. But it certainly is increased in the calmness with which reflected working expenses due to dear labor and dear coal, are borne.

This activity is bound to come at a time when it has given a large number of owners a chance to realize their carrying fleets to advantage. The Japanese, who are usually to the front in such matters, have begun buying up tonnage some time ago, and the formation of the numerous "owneries" in Europe is absorbing large numbers of comparatively new ships, the present owners being glad to sell, notwithstanding the boom.

The last era of high freights was during the Boer war, and to meet the traffic then many vessels were constructed. These are now approaching their first No. 3 survey under Lloyd's rules, usually an expensive operation, and in addition to that the type of freight which is the money-maker has changed in the last ten years, and the owners of one of these steamers can invest the money to greater advantage by putting it into larger and more economical types of cargo ships, which are now turning out. This is attested by the fact that the bulk of the orders from the newly formed "owneries" which are taking up second-hand bottoms, but from the large operating fleets.

NEWINGTON'S MATE WAS INJURED

Government Steamer Returned to Port Yesterday from Carmanah to Land Chief Officer

The government steamer Newington returned to port at noon yesterday to bring her chief officer, Mr. H. J. Heigren, here for medical treatment as a result of an accident while the steamer was landing stores at Carmanah light-house. There was a heavy swell, and when the boat's crew returned to the Newington after taking supplies to the shipyard, the steamer took a big lurch while the boat was being hoisted up and Heigren in trying to fend off the boat caught his hand between the steamer's hull and the boat with the result that one of his fingers was smashed and the palm badly crushed. Capt. Barnes decided to run back to Victoria, and put into San Juan harbor until daylight arriving here about noon. Dr. McKicking dressed the injured man and sent Mr. Heigren to the hospital.

The Newington will leave today for the west coast to continue her voyage. The steamer has on board four shelter huts which are to be erected at Bajo Point, on both sides of Cape Cook and Rugged point near San Juan bay. These huts are intended for the relief of shipwrecked seamen and will be provided with a supply of provisions, hermetically sealed and a small stove will be placed on each, also charts and information printed in three languages showing the easiest method of obtaining succor.

State of Ohio, City of Toledo, Lucas County.

SS. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County of Lucas, State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY, Sworn to before me and subscribed in my presence, this 4th day of December, A.D. 1916.

Take Hall's Family Pills for constipation.

PURLEY ON WAY FROM NEW YORK

Big Freighter with Cargo for Evans, Coleman & Evans Expected to Arrive Next Thursday

The steamer Purley, of the Maple Leaf line, is expected to reach Victoria about Thursday next from New York and Atlantic ports with a large cargo including considerable steel and hardware consigned to Evans, Coleman & Evans. The Commodore, of the Harrison line, which left Liverpool on November 24th after loading at Antwerp and Glasgow, and called at Santos on December 20th, is the next steamer of the Harrison-Deutch service expected here, being due about the end of this month. The Crown of Toledo, which followed the Commodore, arrived on December 20th, having put back to Avonmouth in distress, leaves Liverpool on Saturday on her maiden voyage to this port. The Crown of Toledo is the latest addition to the fleet of Francis, Smith and Henderson for the Direct Line, which operates in conjunction with the Harrison steamers. She will be followed by the Craftsman on February 17th and the Director in March.

TOWBOAT IS BURNED

Mary C Totally Destroyed While Owner Sat Watching on Derrail Barge

SEATTLE, Jan. 12.—Seated on an empty barge drift off Alki point, Capt. Louis Whitehouse, owner and master of the gasoline towboat Mary C, sat yesterday morning watching his vessel burn to the water's edge and her blackened hull sink from view.

After fighting the flames single-handed for nearly an hour, Capt. Whitehouse abandoned the doomed vessel and loaded the barge she was towing. There, helplessly, drift on the Sound, he watched the flames complete their work of destruction.

The fire started in the engine room shortly after 2 a. m. from the explosion of a lantern. Despite the efforts of Capt. Whitehouse, who was alone on the boat, the flames gained rapid headway and swept the little vessel from stern to stern. Shortly after 5 a. m. the fire was observed from Eagle Harbor, and word sent to Seattle for a fire tug. The Squeamish was dispatched to the assistance of the Mary C, but when she arrived the vessel had sunk from view close to the beach outside of Eagle Harbor.

The ill-fated vessel was built at NOME in 1904 by Capt. Whitehouse and used in the Far North as a towboat. She was fifty feet long and was equipped with two forty-horse-power gasoline engines.

VESSELS COLLIDE OFF CARMANAH

Everett G. Griggs and Schooner Coates Come Together—Both Damaged, But No Lives Lost

SEATTLE, Jan. 12.—The six-masted barkentine Everett G. Griggs and the four-masted schooner A. F. Coates collided off Carmanah Point, B. C., last night, while they were endeavoring to beat up through the strait of Fuca, and both vessels were severely damaged. The Griggs lost her foremast, and much of her rigging, and was stove foreward on the bow. The Coates, immediately after the vessels came together, the Griggs forgot their own mishap in their anxiety over the other boat, which had apparently gone to the bottom. A tug cruising off Cape Flattery came to the assistance of the Griggs and towed her to Port Townsend, where she reported that she had collided with and apparently sunk an unknown schooner. Great relief was experienced when Neah Bay, a harbor of refuge, just inside Cape Flattery, telegraphed that the Coates had reached the bay with damaged bowsprit, jibboom gone and much injury about the waterline. No person was injured on either boat.

CROMPTON & BARTON

Members Victoria Real Estate Exchange, 118 Pemberton Building. Tel. 1533.

For six choice lots in Oak Bay; cheapest buy in district on terms.

IF you wish to sell lots, farms, timber lands, coal lands, mines, etc., send us description, price, etc.

A HARDY Bay, Port Hardy, Hardy Bay, \$12,000.

A COAL, exists at Hardy Bay. Steamers from the north, as soon as the railway is built to Hardy Bay, will land their passengers, etc., and they will travel by rail from this port to southern destinations. Fishing steamers will unload their catches at Port Hardy and thereby save each fishing trip about 125 miles, practically doubling their profits. Timber now having to pay \$3 per 1000 for logs to Vancouver will be cut at Port Hardy and sent by car to eastern points. At Port Hardy all freight for Alaska and other points can be transhipped from Oriental steamers at the same wharf to the local vessels.

A UNIMPROVED farms from 2 acres up; call and see list.

A ISLANDS—We have 5 islands near Sidney from \$1000 to \$24,000.

A PEACE River and along line of Grand Trunk Railway, several large blocks for sale.

A PORT Hardy lots from \$175 to \$1000 each; terms 1/3 cash, balance easy.

A PORT Hardy, near 7,000 acres; \$5.25 per acre.

A SINDICATE now being formed to acquire the largest and most valuable land for subdivision, near the townsite and with waterfront. Call for particulars.

A LOT, near 50x150, \$1000.

A MOUNT Baker ave., 2 lots, 60x110; \$1000 each.

SIGNING CONTRACT FIRST OFFICIAL DUTY

Mayor Elect Beckwith and the New Council Will be Formally Sworn in on Monday Next

Mayor-elect Beckwith's first duty as mayor of Victoria will be the signing of the contract between the city and the Westholme Lumber company for the execution of the Sooke Lake development scheme to cost \$1,169,795. Since the ratepayers have so overwhelmingly sanctioned the contract, nothing remains now but to give it formal sanction, whereupon work may commence at once.

It was intended to have the new council for 1912 sworn in yesterday, but owing to the fact that no judge was available, the ceremony has been postponed until Monday evening, the statute calling for a session on the third Monday in January. At that time Mayor-elect Beckwith will announce the various council committees of the year reverting to the old system, where each committee will have representatives of each ward among its number. This first session will be merely routine in nature, but the council will immediately thereafter get down to the business of the year, and its friends look to it to make a good record in civic administration.

All day yesterday Mayor-elect Beckwith and his conferees on the board were busy receiving congratulations, which were numerous. The keen interest which developed during the contest showed itself in the heartiness of the greetings.

Interest is being shown in the visit of England's greatest living actor, Forbes-Robertson, to this city shortly in "The Passing of the Third Floor Back." No actor since Sir Henry Irving has won a higher place in his profession than Forbes-Robertson, and much of his success is due to the wonderful rendering he gives of the part of the "Stranger" in "The Passing of the Third Floor Back." As a play it is a splendid combination of comedy and sublimity, but the masterly portrayal of Forbes-Robertson gives of the leading character raises this play of modern times into higher realms. With a personality that is preeminent, and a voice which is full of tenderness and pathos, this actor carries all before him. The character he reveals to his audience is to a great extent, of course, a mystical one, but is best explained by the reason that he represents the higher self in each one of us. The scene of the play is a boarding-house, where all the lodgers are worrying creatures, full of petty meannesses. Attracted by a card displayed that there is a room to let, this mystical "stranger" comes to the door and asks if he may take the vacant room. This is by way of prologue. The play itself deals with the influence for good that Forbes-Robertson successfully and in simple fashion, casts over his fellow lodgers. The epilogue shows that peace, which is the understanding in the same house, the understanding with a new force—the force of goodwill. It is one of these plays which touches the heart and leaves a lasting impression for good, and all who wish to see a beautiful acting and a wonderful play should witness Forbes-Robertson in "The Passing of the Third Floor Back." The date for this play at Victoria theatre will be Monday and Tuesday, January 22nd and 23rd.

"The Girl of the Golden West" The grand opera by Giuseppe Puccini, probably the most famous living composer, will be offered by Henry W. Savage in English at the Victoria theatre, Friday, January 26. This is the most noteworthy operatic production of the last decade. Never in point of time has a grand opera been presented anywhere on this continent which has equalled in interest that which has been awakened by this work. It represents the ripest genius of the composer of "Bohème" and "Madam Butterfly." It has been triumphantly starred by Mr. Savage and his cast of singers is a long and brilliant one. In order to achieve the desired effects in orchestration it has been found necessary to invent several entirely unique musical instruments. Among these are the Fornaco, whose felt hammer turns certain handles which strike bars of tempered steel and produce a chord known as the "B. E. and B." and this chord in turn harmonizes with the theme sung by the prima donna with wonderful effect, especially at the end of the first act. The Fornaco is used exclusively behind the scenes. Another new instrument which will be heard here for the first time in this production is the Celesta, a keyed instrument of beautiful tone, played with leather-covered hammers and frequently used by Puccini in combination with the harp. Still another is the extra large-sized Glockenspiel, composed of nickel tubes, and used with marvelous effect in the orchestral shading. The Tam Tam, like into a little Indian drum, and the special Tabura (really an immense tambourine) are also found essential in order to secure the proper effects in the opening of the second act.

Crystal Theatre—"The Battle Hymn of the Republic" was shown to capacity audiences yesterday, which goes to show that the people of Victoria appreciate art, and if there ever was a film of art this is one of them. The masterpiece of the Vitaphone company, "The Lesson" by the Biograph company. A young man disobeys the wishes of a father, a minister, to become a preacher, sinking lower and lower until just as his father dies he kills a man in a saloon brawl, and but for the plea of a sister would have been taken to prison.

even as his father died. The power that this picture exerts cannot be questioned. "The Forester's Plea" is a good story and well worth seeing. "Jack's Umbrella" is a Lubin comedy. First the man loses his umbrella in a saloon, an advertisement declaring that the thief is known brings a shower of umbrellas to his front porch. There is a complication at the police station resulting from Jack's attempts to carry some of his surplus umbrellas to the office. This is a story that will keep you laughing. Remember the big feature Monday and Tuesday of three thousand feet, three reels: "Twenty Years in Sing Sing," the latest and considered by those who have seen it, wonderful piece of work, and one worth going a good way to see. This will be seen two days only and in connection with a part of our regular programme at same price of admission.

Zamona Recital—Victoria music lovers are to have an opportunity of hearing Mr. O. Zamona, whose recitals in New York have attracted such high encomiums from critics. This brilliant violinist is to give a special public recital in the Alexandra club on Monday evening, when he will be assisted at the piano by Mr. R. H. Rimes. The programme of the concert, which begins at the convenient hour of 8:45 p.m., will consist of the following representative selection of the great classical and modern composers: Part 1—1. Mendelssohn, Andante from concerto; 2. (a) Hansen, Cradle Song; (b) Godeau, Scherzo; (c) Lalo, Chant Russe; 3. Beethoven, Romanza in G; 4. (a) Debussy, Pizzicati from "Sylvia"; (b) Schubert, Rondo; 5. (a) Dvorak, Capriccio; (b) Dvorak, Capriccio; (c) Chopin, Nocturne; 7. (a) Dvorak, Humoresque; (b) Gabriel Marie, Serenade; (c) Wagner-Leonard, To the Evening Star. From the foregoing programme it will be seen that Mr. Zamona has combined popular taste with one that demands for the exercise of the more critical faculty in musical appreciation. The coming of this new virtuoso to Victoria should arouse considerable interest in a city that is famed throughout the northern continent for its musical taste.

LETTERS TO THE EDITOR

A City Market and Abattoir

Sir,—Now the excitement of the elections is over, I think the mayor and aldermen of the new civic government might give their attention to the above very necessary institutions. I approached our late mayor on more than one occasion relative to the above, and he thought it would be a good idea to have a public market. I also wrote to the press last June on the subject, but nothing has been done in the matter. Surely the high time that Victoria had a market where the producer and consumer could meet and do business in agricultural produce, etc.

Now, with reference to the public slaughter house (abattoir), as at the present time there is absolutely no place in the vicinity of Victoria where live stock can be slaughtered for market. I would ask the authorities where the hundreds of pigs imported in here are killed? I have no hesitation in saying that the conditions are far from sanitary.

In conclusion, let me impress on our citizens to bestir themselves in securing both market and abattoir for the Victoria district, and in the near future we shall have a remedy for the expensive living which we have heard discussed so much the last 12 months. JOSEPH H. LIST.

Seeks Fair Play

Sir,—I have been very distressed over an article which appeared about me in the Times of January 6, which I consider did me a gross injustice. I suppose the reporter who was responsible for writing the article is opposed to the Greek nationality and so used fanatical language about me. I am of Greek origin, but a citizen of British Columbia. It is almost three years since I came to Victoria, and there is not a man,

woman or child who has anything detrimental to say about my character as I have always conducted myself as a gentleman. My intention in coming to this country was to make my living honestly and to settle in the province. I do not think the reporter of the Times has any right to bring up matters connected with my past. The public knows of my past, and there has been nothing wrong about it. Now I would like to ask those who read the article to which I allude to give their attention to a full explanation of what actually took place on Friday, the 5th inst., at 4 p.m. It was as follows:

I presume that people all over the world have celebrated New Year's eve for years by using confetti, which is harmless. On the night to which I allude a couple of ladies and a gentleman named Charles Main were passing by me as I stood on the street. One of the ladies took a rather out of my hands and struck me with it on the head. I took it away from her, and told her to behave herself in the presence of her husband, who had said nothing, and who saw that she was the one to blame. I never imagined that a week afterwards in spite of the fact that he had seen me a good many times in the interval, that he still had it in his head to be revenged for my telling the lady to behave herself and be a lady. He struck me in the face, as I proved afterwards in court, without any provocation, while I had my hands in my overcoat pocket. When I prosecuted him he dared to say that I had insulted his wife by kicking her and pulling her about, neither of which I did, in fact hardly daring to turn my face toward her.

I could give an even more detailed account of what happened, but I have already trespassed on your space too much.

HARRY N. SIMPULOS.

Stock Markets and Financial News

COAL CARRIERS LEAD MARKET

Unexpected Upward Movement Caused by Lehigh Valley Dividend Copper Stock are Under Pressure

NEW YORK, Jan. 12.—Stocks of the coal carrying roads almost monopolized speculation interest today. Union Pacific and United States Steel were relegated to a less prominent position in favor of Lehigh Valley, Reading and other coal carriers. After a fretful morning the market moved upward. The coal stocks, Union Pacific, New York Central and the Telephone and Electric stocks made the best gains.

The unusual activity of Lehigh Valley was due to the declaration of an extra dividend of 10 per cent. in connection with the formation of a company to handle the coal business. The stock was in keen demand at short prices and rose so readily that the shorts were badly squeezed. Reading became more prominent as the day wore on, and gradually took the leadership from Lehigh Valley. The stock was bought on the belief that Reading might adopt the high valley's policy and declare a coal stock dividend. The price rose four points. Central Railroad of New Jersey gained 1 1/2.

The copper stocks were under pressure from reports of higher prices for the metal in this market. St. Paul showed heavy losses, selling within less than 2 points of its low price for 1911. The stock is now regarded as having been brought down to a five per cent. dividend basis in expectation of a reduction of value.

A heavy cash gain by the banks this week was indicated by other movements of money. The gain was estimated at \$18,000,000 to \$20,000,000. The foreign borrowing was less of a factor, and the cash in this money market was so pronounced as to lead some of the banks to seek opportunity abroad for the employment of their funds.

The bond market was steady. Total sales, par value, \$1,567,000. United States bonds unchanged on call.

NOTICE

IN THE MATTER OF THE Estate of William T. Collinson, deceased.
Notice is hereby given that all creditors and other persons having any claims or demands against the estate of William T. Collinson, late of Wayne Island, B. C., deceased, who died on the 10th day of February, 1911, and whose will was proved in the Supreme Court of British Columbia, on the 2nd day of March, 1911, by William Brooks Glassey Naylor and William T. Collinson, as executors, are requested to present their claims and demands in writing to the undersigned, who is authorized by the executors to receive all assets of the estate, on or before the 17th day of January, 1912, at the undermentioned address, after which date the said executors will proceed to distribute the assets of the said estate among the persons entitled thereto, having regard only to the claims and demands of which they shall then have had notice, and the said executors will not be liable for the assets of the said estate or any part thereof so distributed to any person or persons of whose claims or demands they shall not then have had notice. And all persons indebted to the above named deceased, William T. Collinson, are hereby notified to pay to the undersigned, solicitors for the said executors, the amount of their indebtedness forthwith.
Dated at Victoria, B. C., this 4th day of December, 1911.
WILLIAM BROOKS GLASSEY NAYLOR and WILLIAM T. COLLINSON, Executors.
OF 642 BASTION STREET, VICTORIA, B. C.

"WATER ACT, 1908"

THIS IS TO CERTIFY that the Wellington Colliery Company, Limited, holder of Water License No. 1919 and 1920, granted by the Water Commissioner for the Victoria Water District, for the diversion of 1,000 cubic feet per second of water from the Puntledge river, a tributary of Courtenay river, has submitted to the Lieutenant-Governor in Council a plan of the works by which it intends to divert the said water and conduct it to the place where it shall be used for generating electric power as described in the said license.

That the undersigned of the said Wellington Colliery Company, Limited, as set out in the said plan is hereby approved, and the said company is hereby authorized to construct and execute the following works in accordance with the plans and specifications submitted and filed in the office of the Chief Water Commissioner at Victoria, B. C.

An Impounding dam near the outlet of Comox Lake.

Reversing the bed of Puntledge river and the hereinafter described diversion dam to an increased depth of five feet or less.

Constructing a diversion dam with actual business in bankers' bills at \$4.84 for 60 days and \$1.87 for 90 days. Commercial bills, \$4.00, 60 days; \$1.50, 90 days.

That no capital be required beyond that already subscribed and paid up.

That the works above described on or before the 1st day of May next and shall be completed and in use on or before the 1st day of December, 1912.

With the proviso that during the construction of the works the company shall be appointed by the Minister of Lands for that purpose shall have free access to all parts of the works for the purpose of inspecting the same and of ascertaining that the construction thereof complies with the plans and specifications herein referred to, and that the cost of such inspection shall be paid by the company.

Dated this 15th day of November, 1911.
A. CAMPBELL REDDIE,
Deputy Clerk of the Executive Council.

CORPORATION OF THE DISTRICT OF OAK BAY

ELECTION OF SCHOOL TRUSTEES

PUBLIC NOTICE is hereby given to the electors of the Municipality of the District of Oak Bay that a poll will be taken on the 13th day of January, 1912, at 12 o'clock noon, for the purpose of electing three persons as members of the Board of School Trustees.

Any person being a householder in the School District, and being a British subject of the full age of twenty-one years, and otherwise qualified by the Public Schools Act to vote at an election of School Trustees in the said School District, is eligible to be elected or to serve as School Trustee.

The mode of nomination of candidates shall be as follows: The Candidates shall be nominated in writing, the writing shall be subscribed by two voters of the municipality as proposer and secondor, and shall be delivered to the Returning Officer at any time between the 1st day of December, 1911, and 2 p.m. of the day of the nomination, and in the event of a poll being necessary, such poll will be taken on the 13th day of January, 1912, at 12 o'clock noon, for the purpose of electing three persons as members of the Board of School Trustees.

Any person being a householder in the School District, and being a British subject of the full age of twenty-one years, and otherwise qualified by the Public Schools Act to vote at an election of School Trustees in the said School District, is eligible to be elected or to serve as School Trustee.

The mode of nomination of candidates shall be as follows: The Candidates shall be nominated in writing, the writing shall be subscribed by two voters of the municipality as proposer and secondor, and shall be delivered to the Returning Officer at any time between the 1st day of December, 1911, and 2 p.m. of the day of the nomination, and in the event of a poll being necessary, such poll will be taken on the 13th day of January, 1912, at 12 o'clock noon, for the purpose of electing three persons as members of the Board of School Trustees.

NOTICE

In the Supreme Court of British Columbia.
In the Matter of the Estate of John Connor, deceased, intestate, and in the Matter of the Estate of John Connor, deceased, intestate.
Notice is hereby given that under an order granted by the Honorable Mr. Justice G. D. Elliott, dated the 1st day of December, 1911, the undersigned was appointed administrator of the above mentioned estate, and is authorized to receive all assets of the said estate, on or before the 17th day of January, 1912, at the undermentioned address, after which date the said administrator will proceed to distribute the assets of the said estate among the persons entitled thereto, having regard only to the claims and demands of which they shall then have had notice, and the said administrator will not be liable for the assets of the said estate or any part thereof so distributed to any person or persons of whose claims or demands they shall not then have had notice. And all persons indebted to the above named deceased, John Connor, are hereby notified to pay to the undersigned, solicitors for the said administrator, the amount of their indebtedness forthwith.
Dated at Victoria, B. C., this 30th day of December, 1911.
WM. MONTEITH,
Official Administrator.

NOTICE

In the matter of the Estate of John Chapman Davis, deceased.
TAKE NOTICE that all persons owing accounts to the late J. C. Davis are requested to pay the same to the undersigned, who is authorized by the Executors of the above mentioned estate to receive all assets of the estate, on or before the 17th day of January, 1912, at the undermentioned address, after which date the said executors will proceed to distribute the assets of the said estate among the persons entitled thereto, having regard only to the claims and demands of which they shall then have had notice, and the said executors will not be liable for the assets of the said estate or any part thereof so distributed to any person or persons of whose claims or demands they shall not then have had notice. And all persons indebted to the above named deceased, John Chapman Davis, are hereby notified to pay to the undersigned, solicitors for the said executors, the amount of their indebtedness forthwith.
Dated at Victoria, B. C., this 4th day of December, 1911.
